Veteran science writer Michael Balter skillfully weaves together many threads in this fascinating book about one of archaeology's most legendary sites— Çatalhöyük. First excavated forty years ago, the site is justly revered by prehistorians, art historians, and New Age goddess worshippers alike for its spectacular finds dating almost 10,000 years ago.

"The Goddess and the Bull" details the dramatic quest by archaeologists to unearth the buried secrets of this huge, spectacularly well-preserved early farming settlement. Here lie the origins of modern society--the dawn of art, architecture, religion, the nuclear family--even the first tangible evidence of human self-awareness, the world's oldest mirrors.
