WHZOZR - SELAH JOCELYN

Richard Kuklinski liked watching them die. Seeing the light in their eyes go out. He enjoyed knowing that the last thing they saw before dying was his face, looking down on them, wearing a big shit-eating grin. He really enjoyed these trips to Manhattan. Plenty of practice in different ways of killing people. He enjoyed the exercise too. To him, this was all the exercise he needed. Killing people and dumping their bodies off a bridge or slicing their guts open with his knife - to prevent any body gases from building up, so if they were dumped in a body of water they would be sure to sink instead of floating to the surface - and watching them die a slow, excruciating death. He was slowly but surely perfecting his craft. He was only nineteen years old. His reign of terror in within the New Jersey organized crime underworld would last for over two decades before he was put behind bars, but not before he left

behind a legacy of murder and mayhem unlike anything the authorities had ever seen. In COLD AS ICE, author David Boyer digs deep into the life - and mind - of one of America's most famous yet feared contract killers, a man so cold and unfeeling toward his victims he was nicknamed The Iceman.

Becoming the Iceman is a project inspired by Wim and Justin to show the world that anyone can adopt the ability to become an Iceman or Icewoman. The project's goal is to show that the ability to control the body's temperature is not a genetic defect in Wim, but an ability that can be adopted by everyone. For many generations, we have been taught to fear the cold: "Don't forget your jacket You don't want hypothermia, do you?" "Put your gloves on before you get frostbite "Of course, these are consequences of extreme cold exposure, but with the proper understanding, anyone can learn to use the cold as a natural teacher. You may have seen Wim Hof on

television running barefoot through the snow or swimming in ice-cold waters. While performing those incredible feats, Wim remained completely warm and comfortable the entire time. Wim is the epitome of what can happen if someone uses the cold to train the body. Like any new tool, you must understand how it works before you can use it efficiently. This pertains to the cold as well. You may be wondering, "How can you prove that anyone can learn this ability?" Well, as of Fall 2009, Justin Rosales had no experience with the cold whatsoever. He was a college student attending Penn State University. After Justin's friend, Jarrett, showed him one of Wim's videos on YouTube, he became exceedingly interested in understanding this ability. He wanted to see if it was possible for anyone to learn. In Spring 2010, after speaking to Wim for several months via email, Wim invited Justin to attend his workshop in Poland. After many weeks of working as a dishwasher, Justin was able to pay for the trip and learn the technique of the Iceman. With more training and countless experiences with the cold, Justin began to slowly adapt. The length of time he could remain exposed increased dramatically. He quickly realized that the technique to withstand the cold was, indeed, an ability that could be learned by everyone. This book tells the tale of Wim and Justin's journey to becoming the Iceman.

From the author of the Sunday Times bestseller, *M: Maxwell Knight, MI5's Greatest Spymaster In the World War II era*, Geoffrey Pyke was described as one of the world's great minds. An inventor, adventurer and polymath, he was an unlikely hero of both world wars. He earned a fortune on the stock market, founded an influential pre-school, and is seen as the father of the U.S. Special Forces. In

1942, he convinced Winston Churchill to build an aircraft carrier out of reinforced ice. He escaped from a German WWI prison camp, wrote a bestseller, and aided Republicans in the Spanish Civil War. He even launched a private attempt to avert the outbreak of the Second World War by sending into Nazi Germany a group of pollsters disguised as golfers. And he may have been a Russian spy. 70 years after his death, Henry Hemming reveals Pyke's astonishing story in full: his brilliance, his flaws, and his life of adventures, ideas, and secrets.

The controversial journalistic analysis of the mentality that fostered the Holocaust, from the author of *The Origins of Totalitarianism* Sparking a flurry of heated debate, Hannah Arendt's authoritative and stunning report on the trial of German Nazi leader Adolf Eichmann first appeared as a series of articles in *The New Yorker* in 1963. This revised edition includes material that came to light after the trial, as well as Arendt's postscript directly addressing the controversy that arose over her account. A major journalistic triumph by an intellectual of singular influence, *Eichmann in Jerusalem* is as shocking as it is informative—an unflinching look at one of the most unsettling (and unsettled) issues of the twentieth century.

Largely forgotten now, Frankie Yale was an influential New York mobster of the early 20th century whose proteges included future leaders of New York's five Mafia families and Chicago's outfit. His influence extended to Chicago, where he personally committed two of the city's most notorious underworld assassinations and waged a five-year war to wrest control of Brooklyn's docks from Irish rivals. His murder marked New York City's first use of a Tommy gun in gangland

warfare, the same weapon used in Chicago's St. Valentine's Day massacre seven months later. Yale's passing destabilized Gotham's Mafia, paving the way for an upheaval that modified and modernized the structure of American syndicated crime for the next six decades. Despite Yale's prominence during his life, this is the first biography to survey his life and career.

* Instant NEW YORK TIMES and USA TODAY bestseller * * GOODREADS CHOICE AWARD WINNER for BEST DEBUT and BEST ROMANCE of 2019 * * BEST BOOK OF THE YEAR* for VOGUE, NPR, VANITY FAIR, and more! * What happens when America's First Son falls in love with the Prince of Wales? When his mother became President, Alex Claremont-Diaz was promptly cast as the American equivalent of a young royal. Handsome, charismatic, genius—his image is pure millennial-marketing gold for the White House. There's only one problem: Alex has a beef with the actual prince, Henry, across the pond. And when the tabloids get hold of a photo involving an Alex-Henry altercation, U.S./British relations take a turn for the worse. Heads of family, state, and other handlers devise a plan for damage control: staging a truce between the two rivals. What at first begins as a fake, Instagramable friendship grows deeper, and more dangerous, than either Alex or Henry could have imagined. Soon Alex finds himself hurtling into a secret romance with a surprisingly unstuffy Henry that could derail the campaign and upend two nations and begs the question: Can love save the world after all? Where do we find the courage, and the power, to be the people we are meant to be? And how can we learn to let our true colors shine through? Casey McQuiston's Red, White & Royal Blue proves: true love isn't al-

ways diplomatic. "I took this with me wherever I went and stole every second I had to read! Absorbing, hilarious, tender, sexy—this book had everything I crave. I'm jealous of all the readers out there who still get to experience Red, White & Royal Blue for the first time!" - Christina Lauren, New York Times bestselling author of The Unhoneymooners "Red, White & Royal Blue is outrageously fun. It is romantic, sexy, witty, and thrilling. I loved every second." - Taylor Jenkins Reid, New York Times bestselling author of Daisy Jones & The Six

Meet the DeMeo gang - the most deadly killers the Mafia has ever known. They were a small-time Brooklyn corner crew who, headed by the notorious Roy DeMeo, became the hitmen of choice for the Gambino family. Killing for profit and pleasure, they were ultimately feared by everyone - even the Mafia bosses they worked for.\$1.

While some would say that American serial killer Cary Stayner was influenced by family tragedy - his already-troubled family was shattered when his brother was abducted for seven years and held as a sex slave before his heroic return inspired the miniseries "I Know My First Name Is Steven" - in reality, Cary Stayner's true crime story is much more ominous. The handsome, outdoorsy guy with a love for marijuana, nude beaches and the Sierra Nevada mountain range where he once spotted Bigfoot had been harboring fantasies of brutally killing women years before his brother's abduction turned the Stayner family upside down. And in the annals of historical serial killers, Stayner's story stands out, because for months he made one of the most beautiful places on earth a nightmare for women when California's majestic Yosemite National Park became his own devil's playground, and he finally

found himself unable to control his long-suppressed urges. Because he didn't look menacing, the man one FBI agent compared to actor Tom Laughlin in "Billy Jack" was able to gain the trust of his victims, and three vacationing women who were staying at the lodge where he lived and worked during the busy tourist season and a nature-loving teacher who help kids become stewards of the land she loved made that fatal mistake before they were savagely, sadistically murdered. The biography of serial killer Cary Stayner and his psychopathic crime spree leaves spine-tingling chills, because as far as the outside world was concerned, he was a fairly normal guy who found himself uncontrollably compelled to kill. Stayner has been on death row in California's famed San Quentin for more than 10 years, but for the families of his victims, no punishment is just enough to make up for the vibrant lives Stayner took, making him one of the most depraved American serial killers in contemporary history.

"[In Pimp], Iceberg Slim breaks down some of the coldest, capitalist concepts I've ever heard in my life." —Dave Chapelle, from his Netflix special *The Bird Revelation* Pimp sent shockwaves throughout the literary world when it published in 1969. Iceberg Slim's autobiographical novel offered readers a never-before-seen account of the sex trade, and an unforgettable look at the mores of Chicago's street life during the 1940s, 50s, and 60s. In the preface, Slim says it best, "In this book, I will take you, the reader, with me into the secret inner world of the pimp." An immersive experience unlike anything before it, Pimp would go on to sell millions of copies, with translations throughout the world. And it would have a profound impact up-

on generations of writers, entertainers, and filmmakers, making it the classic hustler's tale that never seems to go out of style.

America's decorated, military intelligence remote viewer targets the Italian-Austrian border ~ 3,200 BC Solve the mysteries surrounding Europe's archeological show of the century. Learn about Otzi the Iceman's undetermined home village, life circumstances, how and why died alone in the mountains. which some consider a Neolithic crime scene. Includes maps, a drawing of one of his yet undiscovered tools, a real time portrait from 5300 years ago, and a new interpretation of the man and his still nameless group of people. Includes the Princess Diana Accident sessions Introduction.

The prostitutes working New York City's Times Square were more than a little bit nervous. A deranged serial killer who apparently melted into the crowd was picking up hookers and sadistically torturing them, leaving some girls wondering if there was a real-life Dr. Frankenstein out there attempting to create his own personal plaything from pieces of his dismembered victims. Some working girls were butchered in seedy hotel rooms, their heads, hands or breasts sliced off, their remains then set ablaze in an effort to dispose of any incriminating evidence. Others narrowly escaped death, but only after enduring hours of terrifying torture that included brutal bite marks, surface knife slashes and stab wounds that all served as bloody foreplay for frenzied sexual assaults. Survivors were found bleeding and delirious, unable to remember much due to the cocktail of drugs they'd been given by their assailant. But their bodies told a horrific story that was almost worse than death, and the sadistic calling cards left by the serial killer would eventually tie together victims in

this true crime murder spree that crossed two states. It wasn't until one victim's screams grew loud enough that Richard Cottingham, an American serial killer who was part narcissist, part sadist and all evil, was finally caught by police as he fled his hotel room carrying his bag of torture devices. His capture allowed them to close the books on some of the most horrific murder cases in U.S. history. This serial killer biography not only unearths Cottingham's sick, twisted crime spree, it also delves into the murderer's psyche, attempting to reveal why an insurance company IT guy's seemingly normal life would devolve into madness. Among true crime stories, Richard Cottingham's is particularly brutal, and will likely make you look twice at your own coworkers, and wonder what sick secrets they might be keeping.

Top Mafia hit man. Doting father. For 30 years, Richard 'the Ice Man' Kuklinski led a double life beyond anything ever seen on *The Sopranos*, becoming one of the most notorious professional assassins in American history while hosting neighbourhood barbecues in suburban New Jersey. Kuklinski was Sammy 'the Bull' Gravano's partner in the killing of Paul Castellano, John Gotti hired him to kill his neighbour and he was also intimately involved in the killing of Jimmy Hoffa. He conducted this sadistic business with cold-hearted intensity, never disappointing his customers. For an additional price, he would make his victims suffer. By his own estimate, he killed over 200 men, taking enormous pride in his cunning and the ferocity of his technique. The Ice Man is a blood-chilling insight into the mind of one of the world's most prolific contract killers.

On November 8, 1985, 18-year-old Tom Odle brutally murdered his parents and

three siblings in the small southern Illinois town of Mount Vernon, sending shockwaves throughout the nation. The murder of the Odle family remains one of the most horrific family mass murders in U.S. history. Odle was sentenced to death and, after seventeen years on death row, expected a lethal injection to end his life. However, Illinois governor George Ryan's moratorium on the death penalty in 2000, and later commutation of all death sentences in 2003, changed Odle's sentence to natural life. The commutation of his death sentence was an epiphany for Odle. Prior to the commutation of his death sentence, Odle lived in denial, repressing any feelings about his family and his horrible crime. Following the commutation and the removal of the weight of eventual execution associated with his death sentence, he was confronted with an unfamiliar reality. A future. As a result, he realized that he needed to understand why he murdered his family. He reached out to Dr. Robert Hanlon, a neuropsychologist who had examined him in the past. Dr. Hanlon engaged Odle in a therapeutic process of introspection and self-reflection, which became the basis of their collaboration on this book. Hanlon tells a gripping story of Odle's life as an abused child, the life experiences that formed his personality, and his tragic homicidal escalation to mass murder, seamlessly weaving into the narrative Odle's unadorned reflections of his childhood, finding a new family on death row, and his belief in the powers of redemption. As our nation attempts to understand the continual mass murders occurring in the U.S., *Survived by One* sheds some light on the psychological aspects of why and how such acts of extreme carnage may occur. However, *Survived by One* offers a never-been-told perspective from the mass murderer

himself, as he searches for the answers concurrently being asked by the nation and the world.

The story is set in central Europe 5300 years ago from the northern Alps of Italy to the eastern lands along the Danube River to Vinca, the earliest European Bronze Age civilization. Otzi is the chieftain of a south Tyrolean late stone age tribe scrounging for a living in the high mountains. To support his village he travels on foot to trade with the people on the north side of the mountains. He returns after a long trip to his family and village with a big backpack full of goods, his wife Mara tells him the wheat fields has failed. He and his son Anise must hunt to get through the winter. As a youth he took a trip he took down the Danube to Vinca where he met his father's brother and family who prospered raising goats, farming, and hunting. There meets his first wife, joins the hunting for the huge wild bison, and is told the secret of smelting copper, given a few small copper ore stones to help him find more. He brought his bride back up the Danube but she died during the birth of his son Anise. Desperate to find a way to support his family after the failed wheat crop, he searched the neighborhood for copper ore but found none. A northerner agrees to get copper ore from Tuscany in the south and trade for goats. With the good ore, he is able to make copper, but the copper has never been seen before, is regarded as evil knowledge, and results in a fight to save his life from the judgment of the shaman.

Shocking Stories of the Most Infamous Unsolved Crimes Every criminal dreams of committing the perfect crime. A crime that is so well executed, with clues and evidence so scarce, that even the experts are left baffled. **The Killer Book of**

Cold Cases takes you behind the crime scene tape and deep into the investigations of some of the most puzzling and notorious cold cases of all time from murders to kidnappings to massive bombings that were open for years before the criminal was finally brought to justice. Read about: *The New York City judge whose disappearance was so famous, his name became synonymous with cold cases * The first use of DNA to help solve a murder case that had been cold for years * The bomber who took down an entire plane of people, just to collect on his mother's insurance * The legendary bank robber D.B. Cooper * The murder of two cops in a small California town-a case that took more than 50 years to solve * The Mad Bomber, who drove New Yorkers half crazy in the fifties by planting bombs all over the city Bury yourself in these edge-of-your-seat tales, read chilling quotes, and test your crime IQ with cold-case trivia. You'll stay up wondering which criminals might still be on the loose!

30 inside stories of the American Mafia, Sicilian Cosa Nostra, Camorra and 'Ndrangheta Images of life in the Mob pervade our film and TV screens, some glamorous, some horrific - what is the reality? Investigative journalist Roger Wilkes has put together the largest ever collection of insider stories from prominent ex-mafiosi, infiltrators and award-winning writers. It contains tell-all accounts by the likes of: Richard 'The Iceman' Kuklinski, the contract killer who claimed to have murdered over 200 people in a career lasting 43 years. Frankie Saggio, who 'freelanced' for all five of New York's Mafia families, narrowly escaping assassination before being busted for a major scam. Joey Black, the Hitman, chillingly professional murderer of 38 victims and regarded by many as the

'original Soprano'. Albert DeMeo, the son of a gangster, who later became a lawyer. 'Donnie Brasco', real name Joseph Pistone, the FBI agent, who worked undercover in the Bonanno and Colombo crime families in New York for six years. Tommaso Buscetta, the Sicilian mafioso, the first pentito, or informant, of real significance to break omertà. The two judges with whom he worked, Giovanni Falcone and Paolo Borsellino, were both later killed by the Mafia. This is the reality of the world of men you wouldn't want to cross.

Based on interviews with Ramirez, an account of his crimes follows his criminal odyssey from his first brush with the law, to his Los Angeles murder spree, to the investigation that brought him to justice. In 1961, a United States Air Force officer was on a hunting trip in northern Minnesota. He became separated from his hunting companions while tracking a wounded deer, and stumbled into the strangest encounter he could ever have imagined. He confronted three creatures, shooting one as it charged him killing it. His story would not be known to the public for another eight years. It remains to this day so controversial that most either dismisses it as a hoax or ignores its significance, not knowing how to deal with it.

Carlo presents a harrowing account of Richard Kuklinski, a seemingly ordinary husband and father who was also a cold-blooded killer for hire--the man the Mafia called on when they wanted a special kind of hit. Martin's Press.

The boss of New York's infamous Lucchese crime family, Anthony "Gaspipe" Casso's life in the Mafia was preordained from birth. His rare talent for "earning"—concocting ingenious schemes to hijack trucks, rob banks, and bring vast quanti-

ties of drugs into New York—fueled his unstoppable rise up the ladder of organized crime. A mafioso responsible for at least fifty murders, Casso lived large, with a beautiful wife and money to burn. When the law finally caught up with him in 1994, Casso became the thing he hated most—an informer. From his blood feud with John Gotti to his dealings with the "Mafia cops," decorated NYPD officers Lou Eppolito and Stephen Caracappa, to the Windows case, which marked the beginning of the end for the New York Mob, Gaspipe is Anthony Casso's shocking story—a roller-coaster ride into an exclusive netherworld that reveals the true inner workings of the Mafia, from its inception to the present time.

"A riveting thriller. In an age of superbugs, global terrorism and biological weaponry, *The Iceman Kills* is right on time." -Rebecca McNutt, Goodreads Librarian and author of *Bittersweet Symphony* In 1918, the Spanish Flu virus infected one quarter the world's population, killing over 50 million people. *The Iceman Kills* is an international thriller about bioterrorism and unearthing the Spanish Flu Virus from its long-forgotten resting place in the Antarctic ice. Matt Bowman is a seasoned pilot, flying for the CIA and defending his country. He has been selected to stop the deadliest epidemic in history from being spread throughout the world, and eliminate its creator, Dr. Sing. But Bowman discovers he is unable to do that without the help of a most unlikely ally: Zhang Min, second generation American and AP international news reporter. When Min finally becomes convinced that terrorism awaits the United States, she begs to join a CIA team to protect her country. Only when it is too late does she find out

that a madman, hell-bent on destroying the U.S., will demand her life.

An insider's look at the world of bounty hunters describes the work of The Seekers, a twelve-man team which has pursued and captured some of America's most dangerous criminals

STAR OF BBC ONE'S FREEZE THE FEAR

'I've never felt so alive' JOE WICKS 'A fascinating look at Wim's incredible life and method' FEARNE COTTON My hope is to inspire you to retake control of your body and life by unleashing the immense power of the mind. 'The Iceman' Wim Hof shares his remarkable life story and powerful method for supercharging your health and happiness. Refined over forty years and championed by scientists across the globe, you'll learn how to harness three key elements of Cold, Breathing and Mindset to take ownership over your own mind and wellbeing. 'The book will change your life' BEN FOGLE 'Wim is a legend of the power ice has to heal and empower' BEAR GRYLLS

Written by the bestselling author of *The Ice Man*, *The Butcher* is a gripping and disturbing fly-on-the-wall account of the US Drug Enforcement Administration's four-year hunt to bring down Tommy 'Karate' Pitera, a drug-dealing, murderous capo in the Bonanno crime family. In 1992, Pitera was sentenced to life in prison for murdering six people and supporting a massive drug-dealing operation. Yet this covered only a fraction of the crimes he committed. Pitera is thought to have murdered more than 60 people, cutting many of his victims into pieces before burying them on Staten Island. Exhaustively researched and written with the cooperation of the DEA agents who hunted Pitera down, *The Butcher* will send shivers down the spine of the most hardened reader.

"*The Iceman Speaks: Choices and Consequences*" is an autobiography written to deter teenagers and young adults from a lifestyle of drugs, gangs, violence, and criminal activities. It focuses youth toward education, rewarding relationships with parents, making wise decisions, and the consequences of going down the wrong path. It consists of valid information as to how youths can avoid the traps that lurk in the shadows of society. This book speaks boldly about the rights of victims and the fate of criminals, and the uncensored graphic descriptions of life behind bars is expressed in detail. In today's society, far too many teenagers glorify themselves in violence and a renegade way of life, and far too many young people are filling up jails and prisons. This extraordinary book is designed to combat such negativity. It charts the life of a man, a man with excellent advice. Straightforward, no nonsense, thought provoking.

Soon to be a major motion picture starring Michael Shannon, Winona Ryder, with Ray Liotta and Chris Evans He was smart, merciless, and deadly. And it took someone just as tough to bring him down. A mob contract killer known as "The Iceman" for hiding a body in an ice-cream truck freezer, Richard Kuklinski boasted a personal body count of more than a hundred victims. Using guns, knives, poison, ice picks, tire irons, baseball bats, and bombs, the family man from New Jersey killed for fun, for money, to cover up his own crimes, and to satisfy his inner rage. Law enforcement officials knew all about Kuklinski and had a list of his victims, but couldn't get near him—until undercover agent Dominick Polifrone posed as a mobster and began a deadly game of cat and mouse. In this harrowing true-crime account, Anthony Bruno delves into the mind of a cold-

blooded killer, chronicling the Iceman's grisly crimes and probing the bizarre dynamics of Agent Polifrone's dangerous liaison with him. For as Polifrone carefully built up a case against Kuklinksy, he knew he was running out of time—because the Iceman was planning to kill him too. "Bruno puts his writing talents to white-knuckle use with a tight focus on a killer with no human feelings."—Kirkus Reviews "Excellent . . . [re-creates] the tension and stress Polifrone experienced in fulfilling his risky undercover assignment."—Publishers Weekly

Preserved in a glacier for more than 5,000 years, the Iceman is the oldest intact human body ever found. Advanced scientific research has revealed amazing details about the life of this prehistoric man. Nevertheless, is the rumor true this mummy carries a curse? Is this ancient body actually marked with the number 666? Who killed the Iceman and why was he murdered? Embark on a quest through time and unravel the mystery of the Iceman. You are about to be confronted with a discovery that can only be described as earth shaking! Is this the body of an ancient biblical figure? Join the authors as they investigate a 5,000-year-old murder mystery that will leave you stunned.

The Frozen Dead Guy was once just a regular Norwegian named Bredo Mors-toel. When he died in 1983, his family cryogenically preserved his body and placed it in a permanent holding facility in Nederland, Colorado, to wait until technology might allow it to be defrosted and resurrected. His caretaker is Bo "Ice-man" Shaffer, who has transported ice to the facility and represented the Frozen Dead Guy for seventeen years and counting. Here he chronicles one of Colorado's strangest and most colorful attractions,

one that draws travelers from around the globe to tour the site, attend the annual Frozen Dead Guy Days festival and have a drink.

A story of unrelenting, seedy brutality' - The Herald The elite police officers secretly launching Scotland's biggest ever offensive against organised crime had only one target. His name was Jamie Stevenson, but he was known as The Iceman, the biggest drugs trafficker the country has ever seen. Suspected of a string of murders - including the gangland assassination of his best friend - Stevenson's decade-long rise was built on ruthless ambition, strategic cunning and calculated, brutal violence. It left him at the head of one of Europe's biggest smuggling operations pouring tons of drugs and guns onto the streets of Scotland. "The Iceman" tells the astonishing story of Stevenson's rise and fall, offering a unique and explosive insight into Operation Folklore, the unprecedented four-year investigation that ended in his arrest. It lays bare the blood-soaked business of Scotland's most powerful crime lord and, for the first time, exposes how he made - and laundered - his dirty millions.

Young or old, rich or poor, Hindu or Muslim, all unite at one platform; it's the India Book of Records 2021. The year 2021 can be called the year of record making as more records are created and even more records are attempted than any other year in the past, leading to the breaking of our own boundaries to present you a bigger and thicker India Book of Records 2020. Arguably this is the biggest national book of records ever produced by any country, which in itself can be called a record. Truly, Indians create more records than anyone else on the planet. While many of the Indian record

holders achieved a place in Asia Book of Records and World Record Union, more than 50 Indian record holders featured in a platform created by the initiative of three countries that produce the India Book of Records, Viet-nam Book of Records and Indonesia Book of Records to showcase the top record holders at the global stage. As you are holding 'India Book of Records 2021', surely some of the records will inspire you to challenge yourself to create a record and see your name in India Book of Records 2021.

SALFORD LADS The Rise and Fall of Paul Massey; When legendary old school villain Paul Massey immersed himself in the murky world of his modern-day counterparts, he was executed with a machine gun on the drive of his home. Contained within these pages, is his story. It is a story that will horrify the non criminal mind and lay bare, how Massey unwittingly became the architect of his own demise. Massey was not the only casualty of a toxic feud that had ignited between two Salford gangs following the most trivial of disputes. John Kinsella, a close friend of Massey's, was gunned down in front of his pregnant partner. A seven-year-old boy and his mother were shot, a hand grenade was hurled through the front window of a family home, an attempt was made to behead a man with a machete and an orgy of beatings, stabbings, kidnappings and shootings were carried out in the name of respect. In today's underworld, the old school criminal code has been confined to the bin. Being known as a hard man, once demanded respect, but no more. Guns, and having the mindset to use one, often for little or no reason, has become the norm. Drugs are the currency and death often the penalty for a discrepancy or misdemeanour. It is an unforgiving world that Paul Massey helped to cre-

ate and a world, that ultimately resulted in his death.

Reveals the bloody career of a hitman for the Mafia as told by his wife, who suffered a life of abuse before discovering her husband's profession

Traces the Ultimate Fighting Champion's journey from a bartending job in California to his forefront position as a top-ranked light-heavyweight fighter, describing his intellectual youth, training in martial arts, and numerous UFC victories.

In 1991, scientists announced the unprecedented discovery of a Stone Age man, buried in an alpine glacier for 5000 years. This title takes the reader inside the scientific investigations which sought to understand questions about the world of 3000 BC.

The Iceman is an action-packed World War II military thriller featuring a daring United States Navy submarine commander during the Pacific war in 1942-43. In 1942, off the port city of St. Nazaire in occupied France, a United States Navy S-class submarine assigned to the Royal Navy lurks just outside the borders of the minefield protecting a German U-boat base. Lieutenant Commander Malachi Stormes, the boat's skipper, patrols dangerously close to the minefield entrance and manages to trap and sink three outbound U-boats in one spectacular attack. Britain decorates him, the U.S. Navy promotes him and then gives him command of a brand new class of submarine, a fleet boat called Firefish. Based in Perth, Australia, having been driven out of the Philippines by the Japanese juggernaut, the Perth boats are the only American forces capable of hitting the Japanese in the western Pacific. Stormes, with his cold, steely-eyed focus on killing Japanese ships, is an enigma to his officers and crew, especially when it

becomes clear that he is willing to take huge chances to achieve results. Firefish sinks more ships than any Perth boat on her first war patrol, but Stormes' unconventional tactics literally frighten his crew. Driven by a past steeped in the whiskey-haunted violence of the Kentucky coal fields, whose psychological scars torment his sleep and close him off from personal relationships, Stormes is nicknamed The Iceman. His crew is proud of their boat's accomplishments, but wonder if their iron-willed skipper will bring them home alive. With intense action and featuring authentic submarine tactics in the early years of the Pacific war, *The Iceman* continues P. T. Deutermann's masterful, award-winning cycle of thrillers set during World War II. Over the course of twenty-five years, Dr. Helen Morrison has profiled more than eighty serial killers around the world. What she learned about them will shatter every assumption you've ever had about the most notorious criminals known to man. Judging by appearances, Dr. Helen Morrison has an ordinary life in the suburbs of a major city. She has a physician husband, two children, and a thriving psychiatric clinic. But her life is much more than that. She is one of the country's leading experts on serial killers, and has spent as many as four hundred hours alone in a room with depraved murderers, digging deep into killers' psyches in ways no profiler before ever has. In *My Life Among the Serial Killers*, Dr. Morrison relates how she profiled the Mad Biter, Richard Otto Macek, who chewed on his victims' body parts, stalked Dr. Morrison, then believed she was his wife. She did the last interview with Ed Gein, who was the inspiration for Alfred Hitchcock's *Psycho*. John Wayne Gacy, the clown-obsessed killer of young men, sent her crazed

Christmas cards and gave her his paintings as presents. Then there was Atlanta child killer Wayne Williams; rapist turned murderer Bobby Joe Long; England's Fred and Rosemary West, who killed girls and women in their "House of Horrors"; and Brazil's deadliest killer of children, Marcelo Costa de Andrade. Dr. Morrison has received hundreds of letters from killers, read their diaries and journals, evaluated crime scenes, testified at their trials, and studied photos of the gruesome carnage. She has interviewed the families of the victims -- and the spouses and parents of the killers -- to gain a deeper understanding of the killer's environment and the public persona he adopts. She has also studied serial killers throughout history and shows how this is not a recent phenomenon with psychological autopsies of the fifteenth-century French war hero Gilles de Rais, the sixteenth-century Hungarian Countess Bathory, H. H. Holmes of the late nineteenth century, and Albert Fish of the Roaring Twenties. Through it all, Dr. Morrison has been on a mission to discover the reasons why serial killers are compelled to murder, how they choose their victims, and what we can do to prevent their crimes in the future. Her provocative conclusions will stun you.

There is no reason why you should have heard of Geoffrey Pyke. After his suicide in 1948 he was described as one of the great geniuses of his time, to rank alongside Einstein, yet he remains today, as *The Times* put it, 'one of the most original if unrecognised figures' of the twentieth century. Inventor, escapee, campaigner, war correspondent, Pyke was an unlikely hero of both world wars and is seen today as the father of the U.S. Special Forces. He changed the landscape of British pre-school education, earned a

fortune on the stock market, wrote a bestseller and in 1942 convinced Churchill and Lord Mountbatten to build an aircraft carrier out of reinforced ice. He gave birth to the Mass Observation movement, escaped from a German concentration camp, devised an ingenious plan to get ambulances and microscopes to the Spanish Republicans for free and launched a private attempt to avert the outbreak of the Second World War by sending into Nazi Germany a group of pollsters disguised as golfers. But there was another side to this man. Pyke, it seems, was a man with a secret. In 2009 MI5 released a mass of material suggesting that Pyke was in fact a senior official in the Soviet Comintern. In 1951 papers relating to Pyke were found in the flat of 'Cambridge Spy' Guy Burgess after his defection to Moscow. MI5 had 'watchers' follow Pyke through the bombed-out streets of London, his letters were opened and listening devices picked up clues to his real identity. Convinced he was a Soviet agent codenamed 'Professor P', MI5 helped to bring his career to an end. It is only now, more than sixty years after his death, that Geoffrey Pyke's astonishing story can be told in full. Churchill's *Iceman* is a many-faceted account of this enigmatic man's genius, and reveals him as one of the great innovators of the last century.

"I didn't quite understand what was going on until I saw him die in front of me. His body just lay there, without moving. I called out to him several times, but to no success. He was dead. Now I knew I was next. I knew my daddy would make sure I couldn't tell what REALLY happened." So says Richard Kuklinski, better known as the Iceman. The Devil himself. The monster, in describing his younger

brother's death at the hands of their drunken, abusive father. Richard would go on to kill over 125 people - some just for fun. Another prime example of our own society - sometimes beginning at home, with one's own parents - creating our own monsters, serial killers. Some would call Richard Kuklinski a "hitman," while others would refer to him as one of the prolific serial murderers of our time. Or was he both? Did he suffer from anti-social and paranoid personality disorder, or was he, as some experts say, just born to kill? Born with an "evil gene" in his blood?

NOW IN ENGLISH FOR THE FIRST TIME; THE TRUE STORY OF THE MINNESOTA ICEMAN! The story begins at the end of 1968 in New Jersey, when zoologist Bernard Heuvelmans and biologist Ivan Sanderson first hear from a correspondent about the frozen corpse of an extremely hairy man-like creature being exhibited in the Midwest. Upon arrival in Minnesota, the two scientists come face to face with a ¿hominid¿ not of our species embedded in a block of ice. An inquiry into the origin of the specimen triggers a bizarre adventure involving the FBI, the Smithsonian, the Mafia, the Vietnam War, drug smuggling, Hollywood, and a secretive millionaire, giving much of the account the flavor of a riveting detective story. What happened is told in meticulous detail by Heuvelmans, who draws a startling conclusion as to the Iceman¿s nature based on a comparison of its anatomy with that of modern humans and fossil ancestors. But where Heuvelman¿s scientific tale ends, cryptozoologist Loren Coleman¿s begins, in a lengthy fact-filled afterword that brings this remarkable saga up-to-date.
