## OGL16L - WILEY KASSANDRA

---

In March 1943 a team of expatriate Norwegian commandos sailed from the most northerly part of Britain for Nazi-occupied Norway. Their mission was to organise and support the Norwegian resistance. They were betrayed, and only one man survived the ambush by the Nazis. Crippled by frost-bite, snow-blind and hunted by the Nazis, Jan Baalstrud managed to find a tiny arctic village. There - delirious, near death - he found villagers willing to risk their own lives to save him. David Howarth narrates his incredible escape in this gripping tale of courage and the resilience of the human

spirit.

'An ode to the ocean, and the generations of women drawn to the waves or left waiting on the shore' Guardian In Salt On Your Tongue, Charlotte Runcie explores what the sea means to us, and particularly what it has meant to women through the ages. In mesmerising prose, she explores how the sea has inspired, fascinated and terrified us, and how she herself fell in love with the deep blue. This book is a walk on the beach with Turner, with Shakespeare, with the Romantic Poets and shanty-singers. It's an ode to our oceans - to the sailors who brave their treacherous wa-

ters, to the women who lost their loved ones to the waves, to the creatures that dwell in their depths, to beachcombers, swimmers, seabirds and mermaids. Navigating through ancient Greek myths, poetry, shipwrecks and Scottish folktales, Salt On Your Tongue is about how the wild untameable waves can help us understand what it means to be human.

'There are so many laughs in this book, you almost forget how upsetting capitalism is' Simon Amstell A naked Russian oligarch is spanking me in his basement. His weapon is a birch branch, the setting his luxurious home sauna. Above us is 30,000

square feet of one of Moscow's most obscene private homes, an original Damien Hirst above the fireplace, a vacuum cleaning system built into the skirting boards. Invisible speakers serenade us with a desolate pan pipe cover of 'Bridge Over Troubled Water'. A light display rotates kaleidoscopically, illuminating the oligarch's genitals in a variety of unexpected hues. Everyone is silent. Then the oligarch's son Nikita looks at me with a mysterious smile. 'Now my mother will bring us honey.' Matt Knott spent over a decade traveling the globe as a private tutor. He has taught Shakespeare in Moscow, times tables in Tuscany, and is still trying to figure out how to explain long division. With brilliant honesty and wit, he takes us inside a world most of us only glimpse speeding past in a luxury SUV. Unfolding across four continents and featuring a colourful cast of butlers, billionaires and yummy mummies, this is a hilarious and touching chronicle of an unforgettable time.

Describes the author's 1941 escape "from a Soviet labor camp in Siberia with six other prisoners."

I couldn't stop turning the pages... a great

tale with a deep message' George Robertson 'a thrilling escapade' Bournemouth Echo At the age of nineteen, Glasgow-born John McCallum signed up as a Supplementary Reservist in the Signal Corps. A little over a year later, he was in France, working frantically to set up communication lines as Europe once more hurtled towards war. Wounded and captured at Boulogne, he was sent to the notorious Stalag VIII B prison camp, together with his brother, Jimmy, and friend Joe Harkin. Ingenious and resourceful, the three men set about planning their escape. With the help of Traudl, a local girl, they put their plan into action. In an astonishing coincidence, they passed through the town of Sagan, around which the seventy-six airmen of the Great Escape were being pursued and caught. However, unlike most of these other escapees, John, Jimmy and Joe eventually made it to freedom. Now, due to the declassification of documents under the Official Secrets Act, John McCallum is finally able to tell the thrilling story of his adventure, in which he recaptures all the danger, audacity and romance of one of the most daring escapes of the Second World War.

The incredible true story of Jan Baalsrud's

escape from the Nazis in the frigid wilderness of occupied Norway. In late March 1943, in the depths of the Second World War, four Norwegian commandos arrived by fishing cutter in the cove of Toftefjord in northern Norway. They dropped anchor there, hoping to establish a base of operations for a campaign of sabotage against the occupying Nazi forces. But they were soon betrayed. A German boat attacked the cutter, killing all but one of the would-be saboteurs. The lone survivor, Jan Baalsrud, who was wounded in the fighting, then embarked on the adventure of his life. He swam icy fjords, climbed snow-covered peaks, endured snowstorms, and got caught in a monstrous avalanche—all in an attempt to elude his Gestapo pursuers. More than sixty residents of Norway's Troms District risked their lives to help Baalsrud, who was slowed by snow blindness and frostbite, on his perilous journey to freedom. "Baalsrud and his rescuers," remarked the New York Times, "displayed an unbelievable level of hardheaded toughness and resilience." Defiant Courage is the amazing true story of Baalsrud's escape, which inspired the book *We Die Alone* and the Oscar-nominated Norwegian

film *Nine Lives*. Meticulously researched for more than five years, Astrid Karlsen Scott and Tore Haug's account brings out the truth behind this edge-of-your-seat real-life survival tale.

'I hope *The Long Walk* will remain as a memorial to all those who live and die for freedom, and for all those who for many reasons could not speak for themselves' Slavomir Rawicz Slavomir Rawicz was a young Polish cavalry officer. On 19 November 1939 he was arrested by the Russians and after brutal interrogation he was sentenced to twenty-five years in a gulag. After a three-month journey in the dead of winter to Siberia, life in a Soviet labour camp meant enduring hunger, extreme cold, untreated wounds and illnesses and facing the daily risk of arbitrary execution. Realising that to remain meant almost certain death, Rawicz, along with six companions, escaped. In June 1941, they crossed the trans-Siberian railway and headed south, climbing into Tibet and freedom in British India nine months later, in March 1942, having travelled over four thousand miles on foot through some of the harshest regions in the world, including the Gobi Desert, Tibet and the Hi-

malayas. First published in 1956, this is one of the greatest true stories of escape, adventure and survival against all odds. In 2010, a film, *The Way Back*, based on the book, directed by six-time Academy Award-nominee Peter Weir (*Master and Commander*, *The Truman Show*, and *The Dead Poets Society*) was released. It starred Colin Farrell, Jim Sturgess and Ed Harris.

'The best thriller I've ever read.' Philip Pullman *Kolymsky Heights*. A Siberian permafrost hell lost in endless night, the perfect setting for an underground Russian research station. It's a place so secret it doesn't officially exist; once there, the scientists are forbidden to leave. But one scientist is desperate to get a message to the outside world. So desperate, he sends a plea across the wilderness to the West in order to summon the one man alive capable of achieving the impossible... 'Excellent... *Kolymsky Heights* is up there with *The Silence of the Lambs*, *Casino Royale* and *Smiley's People*.' Social media is coming for you? ready or

not. It might be a viral video or a rogue employee or a media query. Or it could be the POTUS, singling out your company in a 2 a.m. Twitter rant. So this little book will answer some big questions: Why does social media matter for CEOs and how do I do it right?

Since 1956, *The Long Walk* has been, for many, the symbol of an immense love of freedom and has become one of the greatest true-life adventure stories of all time. The harrowing story about a group of POWs who escaped a labor camp in Siberia and walked to freedom in India during WWII deeply affected thousands of its readers, and Linda Willis was one of those moved by the story. But she had questions about its authenticity: Was it all true? What happened after their arrival in India? Were there others involved in the story? Who was Mr. Smith? Though she was not a trained researcher, Willis felt compelled to look at some of the most powerful aspects of the story and to try to dig to the core of the truth behind *The Long Walk*. Willis's investigation took her down unforeseen byways with many hours spent unraveling facts, truths, half-truths, rumors, and the like. She waded through archives, wrote

and spoke to hundreds of people, and continued to seek out and verify the details of the greatest adventure narrative ever written. The path of Willis's research will be a model for anyone attempting a similar search and who has ever thought about the story behind a book. No one who reads Looking for Mr. Smith will ever think of The Long Walk in the same way.

A personal account of the challenges, hardships, and people encountered on a record-making walk from the tip of South America to Alaska's northern coast

This is the story of how, over a period of one hundred and ninety-two days, I was torn away from the life I knew and loved, and dragged down to the depths of despair; of how I endured enforced isolation and near-starvation at the hands of Somali pirates; and of how I made a choice to survive by any and all means that I could muster. In September 2011 Judith Tebbutt and her husband David set out on an adventurous holiday to Kenya. A couple for thirty-three years, they had first met in Zambia: Africa had played a major part in their life together. After a joyous week on safari in the Masai Mara, they flew on to a beach resort forty kilometres south of Somalia. And there, in the early hours of 11 September, tragedy struck them. Judith was torn away from David by a band of

armed pirates, dragged over sea and land to a village in the arid heart of lawless Somalia, and there held hostage in a squalid room, a ransom on her head. There, too, she learned the terrible truth that the responsibility of securing her release now rested with her son Ollie. But though she was isolated, intimidated and near-starved, Judith resolved to survive - walking endless circuits of her nine-foot prison, trying to make her captors see her as a human being, keeping her faith at all times in Ollie. Powerful, moving and at times quite devastating, this is Judith Tebbutt's story in her own words. It is a memoir of the life she shared with her beloved husband, an unflinching account of the ordeal that overturned her world, and a testament to the inner resilience and familial love that sustained her through captivity. There is nothing so bad in life as to have no hope - to believe you have been defeated, to give in to that. Now that I found myself in confinement, four thousand miles from home under a hostile sky, I would not accept that fate for myself.

The Soviet Union's brutal treatment of Polish citizens during World War II is told in the personal story of Wesley Adamczyk, a

Polish boy who lost his childhood innocence during the war, yet survived while maintaining dignity and courage.

A new biography of Isaac Newton that reveals the extraordinary influence that the study of alchemy had on the greatest Early Modern scientific discoveries. In this 'ground breaking biography' Michael White destroys the myths of the life of Isaac Newton and reveals a portrait of the scientist as the last sorcerer.

Twenty-seven tales of survival take readers from the middle of the ocean to the top of a mountain in search of incredible stories of human endurance, with contributions from Richard Connell, Sir Edmund Hillary, Rudyard Kipling, Evelyn Waugh, Farley Mowat, and many others. An astonishing true story of mountaineering survival On 5 January 2003, former Special Forces soldier Ken Jones was caught in a devastating avalanche as he climbed in the frozen wilderness of Romania's Transylvanian Alps. Flung from a cliff, he regained consciousness to find himself shrouded in darkness, separated from his supplies, suffering from overexposure in the sub ze-

ro-temperatures and in horrendous pain from a broken leg and shattered pelvis. Heavily frostbitten and bleeding internally, Ken dragged himself to safety over three agonizing days only to discover that his true ordeal had yet to begin. His account of life saving surgery and his battle to walk again is a classic tale of triumph over adversity and what it means to never give up. Heart stopping and inspiring to the very last page, Ken Jones's story of endurance and survival is an unforgettable testament to the strength of the human spirit. "The miraculous account of the man who survived alone and adrift at sea longer than anyone in recorded history--as told to journalist Jonathan Franklin in dozens of exclusive interviews"--

"A horse scheduled to be euthanized is given a respite. An illiterate man learns to read so he can better care for his puppy. A neurologically-impaired kitten might provide a key to understanding storage diseases in humans. These are some of the successes that make the practice of veterinary medicine a joy, and sometimes a heartbreak. For Kylie Wheeler, they are why she's chosen a career in veterinary medicine, and why she struggles every

day of her professional life."--Back cover. Brian Castner served three tours of duty in the Middle East, two of them as the commander of an Explosive Ordnance Disposal unit in Iraq. He and his team "his brothers" disarmed bombs. Sometimes they used robots and remote controls. Sometimes they set off controlled explosions. Sometimes one of the team would have to put on the eighty-pound Kevlar suit, take the Long Walk, and disarm the device by hand. Often they were simply too late; arriving just in time to pick up the pieces. In a hailstorm of bullets, bomb fragments, body parts and the endless wailing of innocent civilians, the days rolled into nights, yesterday turned into tomorrow, and today never even happened. But after the tour, the celebrations and the long plane ride home, the real war was just beginning. The war against the fear, the confusion, the guilt and the memory loss. The war against the Crazy. This exhilarating, heartbreaking, searingly honest memoir exposes two harrowing and simultaneous realities: the terror, excitement and camaraderie of combat, and the lonely battle against the enemy within.

Prize-winning author, Jean-Christophe Rufin offers up a powerful psychological literary thriller that asks vital questions about the role of humanitarian action in today's world, bringing to light the most fundamental dilemmas of our age. First published in 1956, an account of a

young Polish cavalry officer who was arrested by the Russians, tortured and sentenced to 25 years forced labour. Describes his 3 month journey from Moscow to the prison camp in Siberia, his escape with 6 companions and their journey across the Gobi desert to Tibet and freedom.

Michael Krupa was born into a poor family in south-west Poland, and in his teens was accepted into a Jesuit seminary. He ran away before taking his final vows and joined the army. Soon afterwards, the German tanks rolled into Poland and easily defeated her antiquated forces - the Polish cavalry were armed with sabres. Krupa survived Hitler's invasion, but was arrested in Soviet-occupied eastern Poland and accused of spying. After enduring torture in Moscow's notorious Lubianka prison, he was sentenced to ten years' corrective labour and deported to the Pechora Gulag. Most prisoners there were worked and starved to death within a year. But Krupa managed again to escape, and in the chaos following the Nazi invasion of the Soviet Union made one of the most extraordinary journeys of the war - from Siberia to safety in Afghanistan. Krupa's Jesuit train-

ing had given him an inner strength and resilience which enabled him to survive in the face of appalling brutality and cruelty. Luck and the kindness of strangers helped him complete his epic journey to freedom.

Originally published in 1955, this must be one of the most dramatic adventures of our time. Clemens Forell, a German soldier, was sentenced to 25 years of forced labour in a Siberian lead mine after the Second World War. Rebelling against the brutality of the camp, Forell staged a daring escape, enduring an 8000-mile journey across the trackless wastes of Siberia, in some of the most treacherous and inhospitable conditions on earth. Bauer's writing brilliantly evokes Forell's desperation in the prison camp, and his struggle for survival and terror of recapture as he makes his way towards the Persian frontier and freedom.

A rediscovered mountaineering classic and the extraordinary true story of a daring escape up Mount Kenya by three prisoners of war. When the clouds covering Mount Kenya part one morning to reveal its towering peaks for the first time, prisoner of war Felice Benuzzi is transfixed. The tedium of

camp life is broken by the beginnings of a sudden idea - an outrageous, dangerous, brilliant idea. There are not many people who would break out of a P.O.W. camp, trek for days across perilous terrain before climbing the north face of Mount Kenya with improvised equipment, meagre rations, and with a picture of the mountain on a tin of beef among their more accurate guides. There are probably fewer still who would break back in to the camp on their return. But this is the remarkable story of three such men. No Picnic on Mount Kenya is a powerful testament to the human spirit of revolt and adventure in even the darkest of places. "The history of mountaineering can hardly present a parallel to this mad but thrilling escapade" - Saturday Review "A most extraordinary prisoner-of-war and escape story" - New Yorker "A mad venture and a gallant tribute to man's deep yearning for freedom" - Kirkus Reviews "The book crackles with the same dry humour as its title. It contains the prison-yard bartering and candlelight stitching that mark a classic jailbreak yarn; the encounters with wild beasts in Mount Kenya's forest belt are as gripping, and the descriptions of sparkling glaciers as awe-inspiring,

as any passage in the great exploration diaries of the early 20th century" - The Economist

He was taken to Japan and then forced to work in a mine near Nagasaki. Two months later a nuclear bomb dropped just ten miles away . . .
