11 Things Women Should Know About Menopause

It is best for menopausal women to visit the doctor with their partner, as it helps the doctor to assess how the relationship is affecting her symptoms, and enables the man to play an active role in the treatment process. Offering to accompany a menopausal partner to the doctor is an important way of supporting her.

Husband's Guide to Great Sex After Menopause | myVMC

The menopause is a natural part of ageing that usually occurs between 45 and 55 years of age, as a woman's oestrogen levels decline. In the UK, the average age for a woman to reach the menopause is 51. But around 1 in 100 women experience the menopause before 40 years of age. This is known as premature menopause or premature ovarian insufficiency.
