The virtual workshop will be presented by DGN on September 22, 2020 from 11:00 to 1:00 a.m. Central; 12:00 to 2:00 p.m. EDT and take place via Webex. The purpose of the workshop is to convene government and private sector stakeholders to learn about Mexico's new National Quality Infrastructure Law, which replaces the Federal Law on Metrology and Standardization, published in the Mexican Official Gazette on July 2, 2020 and will enter into force on August 31, 2020.

A national quality infrastructure is essential in breaking down technical barriers to trade. It is thus the key to the greater integration of the partner countries into the international trading system.

[THE ANSWER TO THE GLOBAL QUALITY CHALLENGE](#)

Quality Infrastructure. In a modern world with rapidly growing international trade, countries compete less based on the availability of natural resources, geographical advantages and lower cost of labor, and more on the factors related to the ability of firms to access and compete in new markets. One of these factors is the ability to demonstrate quality and safety of goods and services and to comply with international standards in target markets.

A National Quality Infrastructure (NQI) helps improve the quality of products and services on a national scale while promoting demand for these products and services, which revitalise single enterprises and the economy as a whole.

The Kenya Bureau of Standards (KEBS) has recommended the retention of the current enforcement based national quality management structures for the next fifteen years to facilitate capacity building of voluntary options. Through the National Standards Council (NSC), which is also the KEBS Board of Directors, the national standards body in its submission to the Taskforce on Standards and Quality Infrastructure Reforms in Kenya recommended the maintaining of existing structures; based on ...
