Directed by Rob Rapley. With Iva Baumanova, Chris Bowers, Daniel Brown, Jiri Cap. From PBS and AMERICAN EXPERIENCE: In the early 20th century, the average American medicine cabinet was a would-be poisoner's treasure chest, with radioactive radium, thallium, and morphine in everyday products. The pace of industrial innovation increased, but the scientific knowledge to detect and prevent crimes ...

The Young Poisoner's Handbook is a 1995 British-German-French-produced black comedy film based on the life of Graham Young, more commonly known as "The Teacup Murderer". It was directed by Benjamin Ross and written by Ross and Jeff Rawle. The film stars Hugh O'Connor in the lead role.

**Chemistry and Forensic Science in America | American ...**

Equal parts true crime, twentieth-century history, and science thriller, The Poisoner's Handbook is a vicious, page-turning story that reads more like Raymond Chandler than Madame Curie--The New York Observer A fascinating Jazz Age tale of chemistry and detection, poison and murder, The Poisoner's Handbook is a page-turning account of a forgotten era.

I first became aware of this book after seeing a documentary called "The Poisoner's Handbook" on the PBS program, American Experience. The American Experience documentary was based on this book and the author was one of those interviewed in the program. The documentary was very interesting, so I bought the book after watching the documentary.

The Poisoner's Handbook is a murderous romp through Jazz Age New York and an enthralling look at the birth of forensic

medicine, developed in response to the growing number of poisons in illegal alcohol, common household products, and in the hands of calculating murderers using toxic substances to their nefarious advantage

### **The Poisoner's Handbook: Murder and the Birth of Forensic ...**

This film is based on a true story about a British teenager who allegedly poisoned family, friends, and co-workers. Graham is highly intelligent, but completely amoral. He becomes interested in science, especially chemistry, and begins to read avidly. Something of a social misfit, he is fascinated by morbid subjects such as poisons and murder.
