The authors suggest that charm is a

proven method for interacting with people that makes them open to you and receptive to your message. As a result, they're more likely to have personal and business relationships with you, and think of you in positive terms.

The Power of Charm gives readers proven ways to become more captivating -- and persuasive -- in any situation. With his trademark directness, Tracy shows readers what charm can do, and how they can use simple methods to immediately become more charming and dramatically improve their social lives and business relationships.

I just recently finished The Power of Charm, by Brian Tracy and Ron Arden, which was a recommendation to me from a friend of mine with excellent taste. This book is about projecting charm, and covers material similar to Carnegie's How to Win Friends and Influence People, and other famous books on the topic. The authors cover techniques to come across as attentive and appreciative, so as to charm others by giving them a feeling of importance.
