AUA Consulting is about improving professional services practice and developing professional services performance. It is a consulting practice that is 'of the sector for the sector' - our Consultants are practitioners in higher education administration and management and they are members of our Association.

The Practice of Professional Consulting

Consultants provide advice and implement their solutions in such areas as executive coaching, reengineering work processes, training, and strategy development. To conduct their work, consultants need specialized training in areas such as research methods, interpersonal communications, analytical techniques, and group process, as well as technical and business expertise.

The Practice of Professional Consulting provides the most comprehensive introduction to the field of con-

sulting, including a complete system of guidelines, and all the tools, templates, techn. Despite the size of the consulting industry and its attractiveness to business school graduates, there is a dearth of agreement about what constitutes "professionalism" in consulting.
