The Psychology of Language: From Data to Theory - Trevor A ...

The Psychology of Language (2nd Edition) is a thorough revision and update of the popular first edition. Comprehensive and contemporary, it contains all the student needs to know on the topic, presenting difficult material in a lively and accessible way. There is coverage of all the core topics in language in the undergraduate curriculum and the author interweaves evidence from the various ...

I welcome this opportunity to write a second edition of The Psychology of Language, and I would like to thank Mike Forster of Psychology Press for giving it to me. As I remarked in the preface to the first edition, although language might not be all that makes us human, it is hard to imagine being human without it.

The psychology of language is different from other disciplines in the way it approaches language. In a nutshell, the psycholinguistics approach consists of: Studying how language is used. Psycholinguistics focuses on the use of knowledge and the psychological processes involved in it. Psycholinguistics or psychology of language is the study of the interrelation between linguistic factors and psychological aspects.. The field is concerned with psychological and neurobiological factors that enable humans to acquire, use, comprehend and produce language. The discipline is mainly concerned with the mechanisms in which languages are processed and represented in the mind and brain.

Psycholinguistics - Wikipedia

The Psychology of Language, Fourth Edition is praised for describing complex ideas in a clear and approachable style, and assumes no prior knowledge other than a grounding in the basic concepts of cognitive psychology.

Using language is central to our social and cultural lives. Psychologists and psycholinguists have extensively studied the processes involved in speaking and listening, reading and writing. Most of this work has been done in laboratory contexts, where participants - usually psychology students - carry out rather unusual tasks, such as reading aloud meaningless letter strings.
