The SAGE Handbook of Political Geography provides a highly contextualised and systematic overview of the latest thinking and

research in the field. Edited by key scholars, with international contributions from acknowledged authorities on the relevant research, the Handbook is divided into six sections: The SAGE Handbook of Neoliberalism showcases the cutting edge of contemporary scholarship in this field by bringing together a team of global experts. Across seven key sections, the handbook explores the different ways in which neoliberalism has been understood and the key questions about the nature of neoliberalism: Part 1: Perspectives

The SAGE Handbook of Political Science presents a major retrospective and prospective overview of the discipline. Comprising three volumes of contributions from expert authors from around the world,

the handbook aims to frame, assess and synthesize research in the field, helping to define and identify its current and future developments.

The SAGE Handbook of Political Communication offers an invaluable overview of the best current thinking and research in the field of political communication. As editors, Holli A. Semetko and Margaret Scammell, has brought together some of the most influential international scholars of media and politics.

The Sage Handbook of Nature makes a compelling case for the relevance of social science to a planet that is changing its contours as we speak, while also presenting a body of critical thought willing to flex and morph as the familiar ground gives way. A very rare beast indeed - an authoritative text that dares to treat the 'naturalising' of social theory not

as a vice but as an adventure.

The SAGE Handbook of Political Geography provides students of the sub-discipline with a highly contextualized and systematic overview of the latest thinking and research.
