### Life Science Investing News | Investing News Network

In the last few years, the application of advanced analytics in asset management has moved from the realm of science fiction to, simply, science. Leading firms are applying these tools and insights to improve distribution effectiveness, investment performance, and productivity in the middle and back offices.

What are the fruits of science as it pertains to investing? There's a lot of nonsense, but also a great deal of sense: Factors are important, and most investors should focus on investing in them.
