The Theory of Environmental Policy - William J. Baumol ...

Alternative forms of democracy for environmental policy In political theory, deliberative democracy has been discussed as a political model more compatible with environmental goals. Deliberative democracy is a system in which informed political equals weigh values, information, and expertise, and debate priorities to make decisions, as opposed to a democracy based on interest aggregation. [13]

a given environmental problem differs greatly based on context, in the subsequent sections we will provide a detailed discussion of the major advantages and disadvantages of each policy type. 2.1 Policy Instruments in Theory The principal forms of non-price policy instruments used for environmental protection are mandates and bans.
