The Toyota Engagement Equation

Toyota's Engagement Equation is a valuable guide to developing a Lean culture that is practical, compelling, and truly reflective of Toyota's unique approach. The authors, two Americans who worked at the Kentucky facility and were trained by Japanese mentors, present an accessible method for replicating Toyota's success in any organization.

The Toyota Engagement Equation webinar — How Toyota builds unique strength through developing problem solving capabilities and growing leaders LEADERS WHO SHAPE THE NEXT: a series of live sessions with globally renowned leaders.

Toyota Engagement Equation is from the perspective of two newbies going on a 30-year learning journey with trials and tribulations from priceless lessons with our Japanese trainers/leaders during a unique time within Toyota. We try to replicate a process/equation that describes a very dynamic and synergistic culture that isn't easily replicated.

In The Toyota Engagement Equation, the authors take you through Toyota's own journey of discovery. This deep dive into the company's game-changing work practices reveals how employees were developed, how they were taught to spot and

define problems through standardization, how they were coached to solve them, and how they were encouraged to improve their thinking as they moved forward.

The Engagement Equation. When it comes to solving problems, the authors suggest following The Engagement Equation: $GTS\ 6 + E\ 3 = DNA$. Don't worry if that sounds complicated though, because it's pretty easy to break it down. GTS 6 represents each of the elements of problem-solving: · Go to see · Grasp the situation
As of 2017, the best, most recent book delving into on the Toyota Business Practice is The Toyota Engagement Equation by Tracey & Ernie Richardson. The authors share their decades of experience at Toyota in Georgetown, Kentucky and explain TBP in a relatable way. I highly recommend picking up a copy.
