5EEJPB - HOOPER COLEMAN

CES 2018 wrap-up: The TVs of tomorrow will turn invisible. With the debut of a rollable TV that disappears when not in use, the days of the big black rectangle are numbered.

The first set of televisions to be powered by the new chipset will be Motorola's next-gen smart TV lineup that's all set to debut in India tomorrow, October 9. These smart TVs will launch exclusively on Flipkart alongside a bunch of other Motorola-branded home appliances, including refrigerators, washing machines, and air conditioners.

The TVs of Tomorrow is an engrossing experience for anyone interested in the history of technology or those looking for hints on where that technology may take us next. From the first flat screens to modern HDTV, Gross offers an insightful look at how RCA got from point A to point B with plenty of human interest along the way. Highly recommended.
