Three approaches to valuing intangible assets

What are intangible assets and how do you value them? | Brex

Alternatively, after initial recognition (at cost or at fair value in the case of business acquisitions or mergers), intangible assets with definite useful lives may be revalued at fair value less amortisation, provided there is an active market for the asset to be referred to, as can be inferred from paragraph 75 of IAS 38:

The Companies With the Highest Intangible Value - TheStreet

The market approach to determining intangible asset value isn't perfect, nor is it a science, but it's a solid way to estimate value. To perform a market valuation of an intangible asset, take note of the asset you're trying to value. Then, look to your competitors and see if any of them have publicly traded or sold a similar intangible asset.

Start with the obvious.... Intangible assets are worth a lot and accountants don't do a good job in assessing their value. Leonard Nakamura of the Federal Reserve Bank of Philadelphia provided three different measures of the magnitude of intangible assets in today's economy - an accounting estimate of the value of the investments in R&D, software, brand development and other intangibles; the wages and salaries paid to the researchers, technicians and other creative workers who generate ...

Why the valuation of intangible assets matters in the 21st ...

In 2015, according to the merchant bank Ocean Tomo, intangible assets were approximately 84% of the value of S&P 500

firms. As I mentioned previously, these assets are significant drivers of growth in companies and one of the catalysts for the bull market we have seen in recent years from public exchanges.

Calculated Intangible Value (CIV)

Intangible assets with indefinite useful lives are reassessed each year for impairment. If an impairment has occurred, then a loss must be recognized. An impairment loss is determined by subtracting the asset's fair value from the

asset's book/carrying value. Trademarks and goodwill are examples of intangible assets with indefinite useful lives.
