The evangelical publishing community has been growing for more than two hundred years. Candy Gunther Brown explores the roots of this far-flung conglomeration of writers, publishers, and readers, from the founding of the Methodist Book Concern in 1789 to the 1880 publication of the runaway best-seller Ben-Hur.

How do we talk about climate grief in the church? And when we have found the words, what do we do with that grief? There is a sudden and dramatic rise in people experiencing a profound sense of anxiety in the face of our dying planet, and a consequent need for churches to be better resourced pastorally and theologically to deal with this threat. Words for a Dying World brings together voices from across the world - from the Pacific islands to the pipelines of Canada, from farming communities in Namibia to activism in the UK. Author royalties from the sale of this book are split evenly between contributors. The majority will be pooled as a donation to ClientEarth. The remainder will directly support the communities represented in this collection. Contrib-

utors include Anderson Jeremiah, Azariah France-Williams, David Benjamin Blower, Holly-Anna Petersen, Isabel Mukonyora, Jione Havea, and Maggi Dawn.

Is it possible for an experience of literature to be an experience of life? Can we think of words as existing in three dimensions, as things we move through, in much the same way that we move through the world? And how can we account for their effects beyond the page as we carry them with us, in our bodies, in our selves, holding on to them over the course of our years? In *Between the Word and the World*, Anna MacDonald sets out on an eloquent exploration of these questions and the issues they raise. Drifting with ease from fiction to philosophy, from digital ephemera to psychogeography, from archival voyages to personal correspondence, her essays repeatedly probe the mysteries of writing and its power over our moods, our perceptions, and our sense of being. Whether turning her attention to the poetic musings of Esther Kinsky, the sinister imagery of Cynan Jones, or the fragmented politics of Valeria Luiselli, MacDonald enacts new and provocative ways of thinking about reading, writing, and living, so

that "the worlds dreamed on and beyond the page bleed into one another."

When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

On an alien planet inhabited by two communities exiled from the Earth, a courageous young woman flees her prison-like existence among the vicious denizens of the City to lead the free-spirited Shanty Towners in building a new colony. Reissue.

Born was a child of the rain forest that covered Midworld, part of the primitive society that the peaceful jungle planet had sustained for hundreds of years. He was wise in the ways of his

world, and he knew well the precarious natural balance that governed all things. Then one day the aliens came. Giants. They knew nothing of the Upper or Lower Hell? and they cared less. Born had risked his life to save them, to guide them through the myriad tangled boughs, past unseen, unsuspected dangers lurking in the underbrush. But worse than their ignorance of how to survive, the aliens had plans for Midworld, plans that could utterly destroy the globe-spanning forest that his people called home. As the days passed, Born realized his mistake. And as he had once hunted only to live, he knew now that he would be forced to live only to kill...

Here's a delightful way for young children to interact with Word World characters and visit the whole engaging landscape they inhabit, from the barn with fields and Sheep's hay stack to Bear's Cave and Dog's house on the edge of the forest. How does one get there? By Car, Boat, or Train, of course!

This important book proposes a new account of the nature of language, founded upon an original interpretation of Wittgenstein. The authors deny the existence of a direct referential relationship between words and things. Rather, the link between language and world is a two-stage one, in which meaning is used and in which a natural language should be understood as fundamentally a collection of socially devised and maintained practices. Arguing against the philosophical mainstream descending from Frege and Russell to Quine, Davidson, Dummett, McDowell, Evans, Putnam, Kripke and others, the authors demonstrate that discarding the notion of reference does not entail relativism or semantic nihilism. A provocative re-examination of the interrelations of lan-

guage and social practice, this book will interest not only philosophers of language but also linguists, psycholinguists, students of communication and all those concerned with the nature and acquisition of human linguistic capacities.

Generalisations about language and culture are at best amusing and meaningless, but is there anything sensible left to be said about the relation between language, culture and thought? *Does language reflect the culture of a society? *I

The star-spanning story of humanity's colonization of other planets, Ursula K. Le Guin's visionary Hainish novels and stories re-drew the map of modern science fiction, making it a rich field for literary explorations of "the nature of human nature," as Margaret Atwood has described Le Guin's subject. Now, for the first time, the complete Hainish novels and stories are collected in a definitive two-volume Library of America edition, with new introductions by the author. This second volume in a definitive two-volume edition gathers Le Guin's final two Hainish novels, *The Word for World Is Forest*, in which Earth enslaves another planet to strip its natural resources, and *The Telling*, the harrowing story of a society which has suppressed its own cultural heritage. Rounding out the volume are seven short stories and the story suite *Five Ways to Forgiveness*, published here in full for the first time. The endpapers feature a full-color chart of the known worlds of Hainish descent. LIBRARY OF AMERICA is an independent non-profit cultural organization founded in 1979 to preserve our nation's literary heritage by publishing, and keeping permanently in print, America's best and most significant writing. A dark, dystopian portrait of artists struggling to resist violent sup-

pression—"queer, English, a masterpiece." (Hilton Als) Set amid the rolling hills and the sandy shingle beaches of coastal Sussex, this disquieting novel depicts an England in which bland conformity is the terrifying order of the day. Violent gangs roam the country destroying art and culture and brutalizing those who resist the purge. As the menacing "They" creep ever closer, a loosely connected band of dissidents attempt to evade the chilling mobs, but it's only a matter of time until their luck runs out. Winner of the 1977 South-East Arts Literature Prize, Kay Dick's *They* is an uncanny and prescient vision of a world hostile to beauty, emotion, and the individual.

The lives of the Saints are one of the most powerful ways God draws people to himself, showing us the love and the joy we can find in him. But so often, these Saints seem distant—impossibly holy or dull or unlike us in race and age and state in life. In *Saints Around the World*, you'll meet over one-hundred Saints from more than sixty countries, including Saints with different disabilities, strengths, and struggles. The beautiful illustrations and captivating storytelling will introduce you and your children to new heavenly friends while also helping you fall more in love with Jesus. Each story in this book is written not only to capture the imagination but also to speak about God's tremendous love and our call to be saints. There are stories in *Saints Around the World* for when you feel like life isn't fair, when people are being unkind to you, when you've made a terrible mistake, when you're struggling at school, when prayer is hard. And there are stories of shouting down Nazis, of fleeing a murderous villain, of making scientific discoveries, of smoking a cigar while enemy soldiers amputate your leg. There are scared Saints, brilliant Saints, weak

Saints, adventurous Saints, abused Saints, overjoyed Saints, disabled Saints—and the point of every one of them is the love of God. Whether you're checking the map to find Saints who look like you or perusing the extensive indices to find Saints with your skills or struggles, you'll find countless stories in this book that remind you how very possible holiness is.

This is the life and times of T. S. Garp, the bastard son of Jenny Fields - a feminist leader ahead of her times. It is also the life and death of a famous mother and her almost-famous son; theirs is a world of sexual extremes - even of sexual assassinations. It is a novel rich with 'lunacy and sorrow'; yet the dark, violent events of the story do not undermine a comedy both ribald and robust. It provides almost cheerful, even hilarious evidence of its famous last line: "In the world according to Garp, we are all terminal cases."

Words have always held great power in the Gaelic traditions of the Scottish Highlands: bardic poems bought immortality for their subjects; satires threatened to ruin reputations and cause physical injury; clan sagas recounted family origins and struggles for power; incantations invoked blessings and curses. Even in the pre-

sent, Gaels strive to counteract centuries of misrepresentation of the Highlands as a backwater of barbarism without a valid story of its own to tell. *Warriors of the Word* offers a broad overview of Scottish Highland culture and history, bringing together rare and previously untranslated primary texts from scattered and obscure sources. Poetry, songs, tales, and proverbs, supplemented by the accounts of insiders and travellers, illuminate traditional ways of life, exploring such topics as folklore, music, dance, literature, social organisation, supernatural beliefs, human ecology, ethnic identity, and the role of language. This range of materials allows Scottish Gaeldom to be described on its own terms and to demonstrate its vitality and wealth of renewable cultural resources. This is an essential compendium for scholars, students, and all enthusiasts of Scottish culture.

"In my 30 years of performing professionally...I have not spoken a single word as an actor, nor have I had the urge to do so." So writes international mime theater artist & teacher, Stefan Niedzialkowski, in this inside look at the mental & physical ingredients of an art form that communicates beyond the word. Marcel Marceau writes in the foreword: "His words about mime...will be of interest to anyone who cares about mime, & they will be very important to young students. A must for mime artists, for dancers & actors who wish to delve more deeply into the art of movement. "The approach is subtle, nuanced & sensitive, as befits the poetic art of mime.
