Key Readiness Skills: Set kids up to succeed through interactive, accessible, and engaging workbook exercises. World of Eric Carle is partnering with educational consultant Wiley Blevins, who brings his thirty-plus years of curriculum and educational expertise to each lesson and activity created for this workbook.

Carle is one of the most beloved illustrators of children's books. This retrospective is more than just an appreciation of his art, however. The book also contains an insightful autobiography illustrated with personal photographs, an anecdotal essay by his longtime editor, a photographic essay on how Carle creates his collages, and writings by Carle and his colleagues. Still, it is the artwork in the oversize volume that seizes the imagination. More than 60 of his full-color collage pictures are handsomely reproduced and serve as a statement of Carle's impressive talent. - Booklist

This 8 x 8 inch 96 page hardcover book was published in an edition of 1,000 copies; 500 for United States distribution and 500 for European distribution. It is a joint Donald M. Grant, Imbroglio and Allen Spiegel Fine Arts publication which pre-miered at Phil's Gallery Show opening at Jonathan Levine's Gallery in New York City on February 21, 2015 and contains all 15 paintings exhibited as

well as pencil drawings, an introduction by Michiko Oki and a conversation with Justin Mortimer.

Classic nursery rhymes with interactive elements makes this board book ideal for little hands! With a lift-the-flap on every spread, this sturdy casebound board book is the perfect way to revisit five classic nursery rhymes: "Twinkle Twinkle Little Star," "Old MacDonald Had a Farm," "Hickory Dickory Dock," "The Itsy-Bitsy Spider," and "The Wheels on the Bus."

"A lot has been written about the creation of the song, the album and the film of *Imagine*, mainly by people who weren't there, so I'm very pleased and grateful that now, for the first time, so many of the participants have kindly given their time to "gimme some truth" in their own words and pictures." --Yoko Ono In 1971, John Lennon and Yoko Ono conceived and recorded the critically acclaimed album *Imagine* at their Georgian country home, Titten-

hurst Park, in Berkshire, England, and in the state-of-the-art studio they built in the grounds and at the Record Plant in New York. The lyrics of its title track were inspired by Yoko Ono's 'event scores' in her 1964 book *Grapefruit*, and she was officially co-credited as writer in June 2017. *Imagine* tells the story of John & Yoko's life, work and relationship during this intensely creative period. It transports readers to home and working environments through artfully compiled narrative film stills, Yoko's closely guarded archive photos and artefacts, and stitched-together panoramas taken from outtake film footage that recreate the interiors in evocative detail. Each chapter and song is introduced with text by John & Yoko compiled from published and unpublished sources and complemented by comments from Yoko today. Fresh insights are provided by musicians, engineers and staff who took part, many of whom feature on the inner sleeve's enigmatic picture wheel, in which the identities are finally revealed. All the minutiae is examined: the locations, the key players, the music and lyrics, the production techniques and the artworks - including the creative process behind the double exposure polaroids used on the album cover. With a message as universal and pertinent today as it was when the album was created, *Imagine* cements John and Yoko's place in cultural history.

"Join the very hungry caterpillar for some Christmas counting fun from 1 to 10."--Page 4 of cover.

Celebrate Chanukah with *The Very Hungry Caterpillar!* Light the menorah, spin the dreidel, sing songs, and so much more in this sweet board book! ECONOMIST AND SPECTATOR BOOKS OF THE YEAR 2016 'An extraordinary book ... exceptionally fascinating, always readable and penetratingly intelligent' David Abulafia 'As rich, funny and teeming as Anthony Powell's *A Dance to the Music of Time* ... Dinshaw writes with wit and elegance, and the most elegiac passages of *Outlandish Knight* evoke a lost society London and way of life' Ben Judah, *Financial Times* 'This dazzling young writer is a mine of fascinating, memorable and totally useless information... I have been riveted by this book from start to finish, and leave the reader with one word of advice. Watch Minoo Dinshaw. He will go far' John Julius Norwich, *Sunday Telegraph* The biography of one of the greatest British historians - but also of a uniquely strange and various man In his enormously long life, Steven Runciman managed not just to be a great historian of the Crusades and Byzantium, but Grand Orator of the Orthodox Church, a member of the Order of Whirling Dervishes, Greek Astronomer Royal and Laird of Eigg. His friendships, curiosities and intrigues entangled him in a huge array of different artistic movements, civil wars, Cold War betrayals and, above all, the rediscovery of the history of the Eastern Mediterranean. He was as happy living in a remote part of the Inner Hebrides as in the heart of Istanbul. He was obsessed with historical truth, but also with tarot, second sight, ghosts and the uncanny. *Outlandish Knight* is a dazzling debut by a writer who has prodigious gifts, but who also has had the ability to spot one of the great biographical subjects. This is an extremely funny book about a man who attracted the strangest experiences, but also a very serious one. It is about the rigours of a life spent in the distant past, but also about the turbulent world of the twentieth century, where so much that Runciman studied and cherished would be destroyed.

Biomedical Natural Language Processing is a comprehensive tour

through the classic and current work in the field. It discusses all subjects from both a rule-based and a machine learning approach, and also describes each subject from the perspective of both biological science and clinical medicine. The intended audience is readers who already have a background in natural language processing, but a clear introduction makes it accessible to readers from the fields of bioinformatics and computational biolo-

gy, as well. The book is suitable as a reference, as well as a text for advanced courses in biomedical natural language processing and text mining.

This book constitutes the proceedings of the 18th International Conference on Cryptographic Hardware and Embedded Systems, CHES 2016, held in Santa Barbara, CA, USA, in August 2016. The 30 full papers presented in this volume were carefully reviewed

and selected from 148 submissions. They were organized in topical sections named: side channel analysis; automotive security; invasive attacks; side channel countermeasures; new directions; software implementations; cache attacks; physical unclonable functions; hardware implementations; and fault attacks.

After following paths and signs determined by others, a young boy finally realizes that he must find his own individual way in life.
