Types of Architecture Concepts... Typography. The typography of your site can be used to develop many different conceptual approaches such as the environment the building provides (shelter / exposure), its structural approach (cantilevering / subterranean), how it is perceived (public / private), and how it utilises its context (views / features).

Description. The Theory of Architecture Concepts, Themes & Practices Paul-Alan Johnson Although it

has long been thought that theory directs architectural practice, no one has explained precisely how the connection between theory and practice is supposed to work. This guide asserts that architectural theory does not direct practice, but is itself a form of reflective practice.
