Many of us are born into this world with the feeling and knowing of what being loved by another person should feel and be like, but we lack the feeling and knowing of how to fulfill this desire in

the highest and best way. The desire for a soul mate is the ancient need to become the divine couple whose union breathes new life into the world. Seen from this context, finding your soul mate has deeper ramifications than a purely romantic desire; the union of a soul mate is about the creation of an energy that is a candle to bring illumination to the world. The content of this book is designed for spiritually romantic people who have not lost the faith that there is someone out there that has a divine understanding of us, and that two people are brought together for a divine plan that will contribute towards a higher purpose. Based on Vianna Stibal's own experience of finding her soul mate, this book will reaffirm your belief in true love and will explain how, using ThetaHealing®, you can bring your soul mate into your life.

Are you looking for The One? Well, according to Dr Helen Fisher, biological anthropologist and relationship expert, you don't have to look any further for the way to find that special someone than your very own brain chemistry. Based on Dr Fisher's groundbreaking personality type study, in which she analyzed the personalities of more than 28,000 people, Why Him? Why Her? provides a formula for long-term love that is based on cutting-edge discoveries in evolutionary neurology. Once you've identified yourself as one of the personality types (explorer, builder, negotiator, or director) Dr Fisher provides a detailed plan of how to find, fix, or keep up your ideal love match.

This book reveals what people have wanted to know about the human condition from the very beginning of time: What are feelings for? Within its pages, you will discover the secret language of feelings. That language is a voice within us. Sometimes it is as soft as a whisper; sometimes it is as loud as a roar. It is an important voice, which, when fully understood, gives you a kind of guidance that no other voice can. The information in The Secret Language of Feelings was revealed during thousands of hours of working with hypnotherapy clients at the Banyan Hypnosis Center for Training & Services. It came from clients who spoke to us both in the normal waking state and in the state of hypnosis. You do not need to undergo hypnotherapy in order to benefit from this book;

however, it would make a perfect companion book for anyone involved in any therapy process or working on self-improvement. The Secret Language of Feelings gives you a rational and reliable approach to understanding and responding to your feelings and emotions. It shows you how to create a more satisfying life right now! You will learn how to overcome anger, guilt, frustration, sadness, loneliness and even "everyday" depression. You will better understand yourself, your family and the people you interact with on a daily basis. In short, The Secret Language of Feelings offers the key to emotional rescue and beyond to happiness and success in life.

Imagine—what if you had access to a simple yes-or-no answer to any question you wished to ask? A demonstrably true answer. Any question . . . think about it.— from the Foreword We think we live by forces we control, but in fact we are governed by power from unrevealed sources, power over which we have no control.— from the author's Preface The universe holds its breath as we choose, instant by instant, which pathway to follow; for the universe, the very essence of life itself, is highly conscious. Everything You Need to Know about How to Use One of Today's Most Powerful Philosophies! "We go in search of that which we already possess, but are not using." So says Ernest Holmes, author of THE SCIENCE OF MIND and founder of the philosophy of Religious Science. God is not far away, but is within ourselves, other people, and everywhere present. Why then, do we fall prey to unwanted conditions - illness, financial lack, relationship difficulties, loneliness and problems of every kind? Written as a manual for the practical applications of the principles set forth in The Science of Mind, this book takes the original philosophy of "change your thinking, change your life," and explains a clear and definite scientific method of prayer that can help you overcome life's obstacles.

First developed twenty years ago by Vianna Stibal, ThetaHealing is essentially applied quantum physics. Using a theta brain wave, which until now was believed to be accessible only in deep sleep or yogi-level meditation, the practitioner is able to connect with the energy of All That Is - the energy in everything - to witness healings of the physical body, and to identify and change limiting beliefs. This book is for those who have already started to experience the magic of this energy healing modality, and wish to deepen their understanding of the Seven Planes of Existence - the philosophy behind the creation of ThetaHealing. Vianna presents exciting new information to help you take your skill with this work to the next level, and brings the reader into dimensions that she believes to be the beginnings of life itself, on a journey that leads outward, past the universe, to transform beliefs, showing that with a theta state of mind it is possible to connect to a Divine Energy before it becomes anything in this universe.

«¿Cuál es el verdadero sentido de la alergia?» Un libro que va más allá de las explicaciones tradicionales sobre las alergias. Este libro describe los fenómenos alérgicos más comunes, tales como las alergias a los alimentos, las plantas, el polen, el polvo doméstico, las plumas, los medicamentos y los metales, así como las alergias oculares, la rinitis, la sinusitis y la fiebre del heno. La versión tradicional de la alergia nos habla de una deficiencia del sistema inmunitario y la califica como enfermedad «que en la actualidad afecta a un número cada vez mayor de personas, pero que sigue siendo una desconocida». Otras interpretaciones consideran que lo más importante es la «predisposición del terreno» para esta enfermedad. La presente obra propone una visión psicosomática que intenta ir más allá de tales afirmaciones y desarrolla los factores psíquicos que pueden estar en el origen de esta patología tan frecuente, dando respuesta a la siguiente pregunta: ¿Cuál es el verdadero sentido de la alergia?

'I want you to keep on going back and back in your mind. And strange as it may seem you will find that there are other scenes in your memory. There are other scenes from faraway lands and distant places...' Bridey Murphy died over a century ago. A sensational bestseller when it was first published, this edition, thoroughly updated and revised, also addresses the critics of the Bridey Murphy sessions.

Digestive Intelligence tells the fascinating story of how our digestive systems are the centre of our bodies' second brain and how

we think and live our emotions via our stomachs. Not surprising when you consider there is something equivalent to the size of a village football pitch hiding inside our bellies--that's the incredible magnitude of our digestive systems. Dr Matveikova answers the obvious questions: "How?" and "Why can this be so?" by explaining, in straight forward layman's language, that the digestive system contains more than one million neurones, identical to those in the brain and is responsible for producing 90% of the body's hormone, serotonin, the all-important hormone which makes us feel happy and full of wellbeing. It follows that, if our stomach is "out of sorts" we feel irritable and lacking in energy; and those feelings block our intellectual productivity, disorientate us and completely change our thought patterns and physical processes.

"ThetaHealing® is a revolutionary technique developed by Stibal that allows a person to enter into a state of deep meditation, tap into the brain's Theta waves, and activate incredible healing powers. In the pure and divine Theta state of mind, we are able to connect with the Creator of All That Is through focused prayer, access fascinating knowledge and change not only our own lives, but the lives of others."--Amazon.com.
