Nearly ONE THIRD of the Bible concerns Prophecy. And MOST of that prophecy is for the last 42 months of this age. The book of Revelation is for "the Lord's day" - not a day of the week, but for the prophetic time in the prophets of the Old Testament known as "the day of the Lord." All nations on earth are families grown large and many of them moved, migrated, and settled in the lands where we find them today. Much recorded history down through the ages shows who the modern nations of the world are, where they came from, and who they were in the days of the Old Testament prophets. Much prophecy has a two fold fulfillment i.e. Jeremiah 30:1-9; Isaiah 11. The latter fulfillment is for the very end times - the last 42 months of this age - Luke 21:22 "For these be the days of vengeance, that all things that are written may be fulfilled." With these basic keys we can understand the Bible prophets as they speak to us for our day and beyond into the last 42 months of this age, leading up to the glorious, powerful, mighty return of Christ Jesus to this earth, and the establishing of the Kingdom of God on earth. Nearly ONE THIRD of the Bible concerns Prophecy. And MOST of that prophecy is for the last 42 months of this age. The Limits of Mankind: A Philosophy of Population provides infor-

mation pertinent to the tremendous problem of world population. This book discusses whether the achievement of maximum economic welfare for the whole world will not result in minimum satisfaction for everybody through the exhaustion of habitable living-space. Organized into 10 chapters, this book begins with an overview of population density. This text then examines the extent of damage that humans has done to the balance of nature, including the decimation of the forests, the spread of erosion, and the creation of deserts. Other chapters consider the potential danger from disease, which is greatly increased by the proliferation of humans. This book discusses as well the idea of planetary colonization. The final chapter deals with the evils of over-population in a world that had run short of space. This book "The Triune God" is put together to give us some insights, and understanding on the God we serve. The God we serve is a Triune God. In the introduction of this book I briefly introduce God the Father, God the Son, and God the Holy Spirit before taking you deeper into their roles in the creation of Heaven and earth, and Mankind in chapter 1 and chapter 2. Chapter 1 expounds on the roles of the Triune God according to each personality of God. Chapter 2 describes how the Triune God involves in creating the heavens, and the earth. Chapter 3 further explains with more insights on how the Triune God created the first man Adam, and Eve. And in Chapter 4, I expounded with insights on why Jesus has to breathe on His disciples again before leaving them. The awareness of knowing that the Triune God lives in us, and we live in Him is sufficient revelation to transform your life, and make manifest what you carry on the inside in the physical realm. Don't forget that as a born again believer, washed by the blood of the Lamb, and being filled with the Holy Spirit of God, you have the Triune God's DNA running in you, and the Triune God lives in you. In Wild, Cheryl Strayed writes of The Ten Thousand Things: "Each of Dermoût's sentences came at me like a soft knowing dagger, depicting a far-off land that felt to me like the blood of all the

places I used to love.” And it's true, *The Ten Thousand Things* is at once novel of shimmering strangeness—and familiarity. It is the story of Felicia, who returns with her baby son from Holland to the Spice Islands of Indonesia, to the house and garden that were her birthplace, over which her powerful grandmother still presides. There Felicia finds herself wedded to an uncanny and dangerous world, full of mystery and violence, where objects tell tales, the dead come and go, and the past is as potent as the present. First published in Holland in 1955, Maria Dermoût's novel was immediately recognized as a magical work, like nothing else Dutch—or European—literature had seen before. *The Ten Thousand Things* is an entranced vision of a far-off place that is as convincingly real and intimate as it is exotic, a book that is at once a lament and an ecstatic ode to nature and life.

The post-apocalyptic modern classic with an introduction by novelist John Banville. In a burned-out America, a father and his young son walk under a darkened sky, heading slowly for the coast. They have no idea what, if anything, awaits them there. The landscape is destroyed, nothing moves save the ash on the wind and cruel, lawless men stalk the roadside, lying in wait. Attempting to survive in this brave new world, the young boy and his protector have nothing but a pistol to defend themselves.

They must keep walking. Winner of the Pulitzer Prize for Fiction, *The Road* is an incandescent novel, the story of a remarkable and profoundly moving journey. In this unflinching study of the best and worst of humankind, Cormac McCarthy boldly divines a future without hope, but one in which, miraculously, this young family finds tenderness. An exemplar of post-apocalyptic writing, *The Road* is a true modern classic, a masterful, moving and increasingly prescient novel. This edition is part of the Picador Collection, a series of the best in contemporary literature, inaugurated in Picador's 50th Anniversary year.

“Thoroughly engrossing . . . a spirited, suspenseful, economically told tale whose significance is manifest and whose pace never flags.” —The Wall Street Journal From The New York Times–best-selling author of *The Ghost Map* and *Extra Life*, the story of a pirate who changed the world Henry Every was the seventeenth century's most notorious pirate. The press published wildly popular—and wildly inaccurate—reports of his nefarious adventures. The British government offered enormous bounties for his capture, alive or (preferably) dead. But Steven Johnson argues that Every's most lasting legacy was his inadvertent triggering of a major shift in the global economy. *Enemy of All Mankind* focuses on one key event—the attack on an Indian treasure ship by Every and his crew—and its surprising repercussions across time and space. It's the gripping tale of one of the most lucrative crimes in history, the first international manhunt, and the trial of the seventeenth century. Johnson uses the extraordinary story of Henry Every and his crimes to explore the emergence of the East India Company, the British Empire, and the modern global marketplace: a densely interconnected planet ruled by nations and corporations. How did this unlikely pirate and his notorious crime end up playing a key role in the birth of multinational capitalism? In the same mode as Johnson's classic nonfiction historical thriller *The*

Ghost Map, Enemy of All Mankind deftly traces the path from a single struck match to a global conflagration.

Genesis in its entirety, and the first eleven chapters in particular are indispensable for a meaningful understanding of God's living Word. Genesis chapter one is the majestic and glorious opening of the Bible. Armed with a real understanding of God's revealed identity, His awesome Power, and the nature of His Purpose outlined in Genesis chapters one through eleven, the student of the Bible can confidently follow the Biblical narrative as the account of God's relationship to man unfolds through the records of time and history chronicled in the pages of the Holy Bible. The Prophets, the Psalmist, the Poets, the Evangelists, and the Apostles were inspired to expound what is revealed in Genesis chapters one through eleven. Flowing out of Genesis, the Biblical narrative tells the account of creation, rebellion, and redemption in the context of God's Holiness, Righteousness, Justice, and Glory. Writing in an age when the call for the rights of man had brought revolution to America and France, Mary Wollstonecraft produced her own declaration of female independence in 1792. Passionate and forthright, *A Vindication of the Rights of Woman* attacked the prevailing view of docile, decorative femininity, and instead laid out the principles of emancipation: an equal education for girls and boys, an end to prejudice, and for women to become defined by their profession, not their partner. Mary Wollstonecraft's work was received with a mixture of admiration and outrage. Hugh Walpole called her "a hyena in petticoats." Yet it established her as the mother of modern feminism.

Acclaimed New York Times journalist and author Chris Hedges offers a critical -- and fascinating -- lesson in the dangerous realities of our age: a stark look at the effects of war on combatants. Utterly lacking in rhetoric or dogma, this manual relies instead on bare fact, frank description, and a spare question-and-answer format. Hedges allows U.S. military documentation of the brutalizing physical and psychological consequences of combat to speak for itself. Hedges poses dozens of questions that young soldiers might ask about combat, and then answers them by quoting from medical and psychological studies.

- What are my chances of being wounded or killed if we go to war?
- What does it feel like to get shot?
- What do artillery shells do to you?
- What is the most painful way to get wounded?
- Will I be afraid?
- What could happen to me in a nuclear attack?
- What does it feel like to kill someone?
- Can I withstand torture?
- What are the long-term consequences of combat stress?
- What will happen to my body after I die?

This profound and devastating portrayal of the horrors to which we subject our armed forces stands as a ringing indictment of the glorification of war and the concealment of its barbarity.

Harvard's acclaimed geologist "charts Earth's history in accessible style" (AP) "A sublime chronicle of our planet." -Booklist, STARRED review How well do you know the ground beneath your feet? Odds are, where you're standing was once cooking under a roiling sea of lava, crushed by a towering sheet of ice, rocked by a nearby meteor strike, or perhaps choked by poison gases, drowned beneath ocean, perched atop a mountain range, or roamed by fearsome monsters. Probably most or even all of the above. The story of our home planet and the organisms spread across its surface is far more spectacular than any Hollywood blockbuster, filled with enough plot twists to rival a bestselling

thriller. But only recently have we begun to piece together the whole mystery into a coherent narrative. Drawing on his decades of field research and up-to-the-minute understanding of the latest science, renowned geologist Andrew H. Knoll delivers a rigorous yet accessible biography of Earth, charting our home planet's epic 4.6 billion-year story. Placing twenty first-century climate change in deep context, A Brief History of Earth is an indispensable look at where we've been and where we're going. Features original illustrations depicting Earth history and nearly 50 figures (maps, tables, photographs, graphs).

Bachelor Thesis from the year 2010 in the subject History - Asia, grade: A, University of Airlangga, course: English Literature, language: English, abstract: ABSTRACT This paper, through postcolonial-feminist criticism, attempts to prove the existence of the oppression toward the Javanese women during the Dutch's colonialism in Indonesia. The analysis is focused to the character of Sanikem which is also known as Nyai Ontosoroh in Toer's *This Earth of Mankind*. Firstly it aims to know whether there is a relation between the Dutch's colonialism and the Javanese feudalism

with the oppression towards Sanikem and then analyse how the dual hierarchy of the Dutch's colonialism and Javanese's feudal system contribute to the oppression. The second is to discover shifting of Sanikem's personality which makes her aware of the oppression and struggle against it. And the last is to examine whether, under the oppression, Sanikem successfully voices her rights or whether her struggles results in vain. In conducting the analysis, cultural and historical background will be applied in the thesis along with the discussion of the subaltern women in a colonized country established by Gayatri Chakravorty Spivak. This research applies qualitative method which means that the data is taken from the novel itself which is *This Earth of Mankind*, both digital and non-digital library research, journals, and other resources which are appropriate in conducting the analysis.
