

Read Free Ties To Tattoos 2nd Edition 573429 PDF

Thank you utterly much for downloading **Ties To Tattoos 2nd Edition 573429 PDF**. Maybe you have knowledge that, people have seen numerous times for their favorite books when this Ties To Tattoos 2nd Edition 573429 PDF, but end taking place in harmful downloads.

Rather than enjoying a fine ebook in the manner of a mug of coffee in the afternoon, otherwise they juggled similar to some harmful virus inside their computer. **Ties To Tattoos 2nd Edition 573429 PDF** is easy to get to in our digital library an online right of entry to it is set as public appropriately you can download it instantly. Our digital library saves in combination countries, allowing you to get the most less latency period to download any of our books in the manner of this one. Merely said, the Ties To Tattoos 2nd Edition 573429 PDF is universally compatible in the manner of any devices to read.

CCGDE1 - GLOVER BRUNO

Living in a time when it was scandalous even to show a bit of ankle, a small number of courageous women covered their bodies in tattoos and traveled the country, performing nearly nude on carnival stages. These gutsy women spun amazing stories for captivated audiences about abductions and forced tattooing at the hands of savages, but little has been shared of their real lives. Though they spawned a cultural movement—almost a quarter of Americans now have tattoos—these women have largely faded into history. The *Tattooed Lady* uncovers the true stories behind these women, bringing them out of the sideshow realm and into their working class realities. Combining thorough research with more than a hundred historical photos, this updated second edition explores tattoo origins, women's history, circus lore, and includes even more personal and professional details from modern tattooed ladies. A fascinating read, *The Tattooed Lady* pays tribute to a group of unique and amazing women whose legacy lives on.

This engaging and informative resource provides readers with an understanding of the social, cultural, and historical influences that shape our encounters with death, dying, and bereavement—a universal experience across humanity. • Provides comprehensive yet easily accessible and concise entries that offer insight into the expanding study of death, dying, and bereavement • Contains more than 200 engaging entries from key thinkers and practitioners within the interdisciplinary field of death studies • Addresses a wide range of topics of both contemporary and historical interest, including memorial tattoos, Facebook grieving, and so-called "dark tourism," which reflect shifting attitudes and practices surrounding end-of-life issues The essays collected in *Tattooed Bodies* draw on a range of theoretical paradigms and empirical knowledge to investigate tattoos, tattooing, and our complex relations with marks on skin. Engaging with diverse disciplinary perspectives in art history,

continental philosophy, media studies, psychoanalysis, critical theory, literary studies, biopolitics, and cultural anthropology, the volume reflects the sheer diversity of meanings attributed to tattoos throughout history and across cultures. Essays explore conceptualizations of tattoos and tattooing in Derrida, Deleuze and Guattari, Lacan, Agamben, and Jean-Luc Nancy, while utilizing theoretical perspectives to interpret tattoos in literary works by Melville, Beckett, Kafka, Genet, and Jeff VanderMeer, among others. *Tattooed Bodies* prompts readers to explore a few significant questions: Are tattoos unique phenomena or an art medium in need of special theoretical exploration? If so, what conceptual paradigms and theories might best shape our understanding of tattoos and their complex ubiquity in world cultures and histories?

Disrupting commonly held notions about who gets tattooed and why, *The Tattoo Project* describes, illustrates, and celebrates the social significances of commemorative tattoos. Written by scholars from various disciplines, as well as by community members and practitioners, this edited collection considers the meanings people make from their experiences of love, loss, trauma, resilience, and change, and why they choose to inscribe those meanings on their bodies. This methods-based text also examines the process of building a community-contributed digital archive of tattoo photos and stories, the result of which inspired the contributions to this book. Writing at the intersections between the public and the private, the authors consider the production and mobilization of knowledge across communities, disciplines, and space. Featuring beautiful tattoo photography, personal narratives from project participants, and original poetry by Priscila Uppal, *The Tattoo Project* is a novel read that bridges the gap between academic and popular audiences. This timely collection is a valuable resource for courses across the social sciences and humanities and for anyone interested in tattoos and their significance.

Tattoos as art, work, decoration and defiance.

In recent decades, tattoos have gone from being a subculture curiosity in Western culture to mainstream and commonplace. This two-volume set provides broad coverage of tattooing and body art in the United States today as well as around the world and throughout human history. • Provides the most complete global overview of tattooing and body art as it exists today and throughout history, available in one resource • Addresses the major practices, their historical and cross-cultural locations, and the major cultural groups and places in which tattooing has played a central role in social and cultural practices • Covers individuals who helped popularize tattooing, the major theoretical issues surrounding tattooing, the laws and customs regarding tattooing, the many ways in which tattooing has played a role in various marketing and advertising campaigns, and the social movements that have influenced or been affected by tattooing • Includes a comprehensive list of resources such as magazines, organizations, websites, and museums devoted to tattooing as well as a glossary and comprehensive bibliography

This Brief studies the important role that tattoos play in prison culture, and examines its unique manifestation among minority inmates. This work aims to provide a better understanding of prison group culture, particularly among social marginal groups, through the lens of Russian immigrants in Israeli prisons. Russian immigrants currently represent approximately 25% of the total Israeli prison population, and this book examines how tattoos show an important form of rebellion amongst this group. As tattoos are forbidden in some forms of Islam and Judaism, and the Israeli prison service confiscates over 200 homemade tattoo devices per year, this is a significant phenomenon both before and during incarceration. This work examines how despite the transition to Israel, the main social codes of Russian prisoners are still dominant and help segregate this group from the larger prison population. It

provides a lens to understand Russian criminal activity in Israel, and in a larger context, the modes of social cohesion and criminal activity of organized crime groups operating in prison systems. This work will be of interest to researchers studying the organized crime and the criminal justice system, Russian organized crime in particular, as well as related studies of immigration, demography, and social cohesion. The Mike Oldfield Chronology, Second Edition, is a comprehensive look at the recording and release history of the man who, for over 40 years, has created some of the world's most innovative and groundbreaking music. This Chronology covers every aspect of Mike Oldfield's recording career, from his early days with his sister in the folk duo The Sallyangie, to his joining Kevin Ayers And The Whole World, through the recording of his albums and his numerous guest appearances. The information is presented date by date in chronological order, accompanied by detailed descriptions of each song version and non-album track, edit, remix, extended version and demo (some released and some unreleased). It also covers Mike's tours and live appearances.

Anthropology Matters places the study of anthropology concretely in the world by which it is surrounded. It takes a question-based approach to introducing important anthropological concepts by embedding those concepts in contemporary global issues that will interest students. The second edition of this popular text has been updated throughout and includes four new chapters on language revitalization, social media and social revolutions, human migration, and the role of NGOs in international development practice. Students can now engage with the most up-to-date issues while learning to think anthropologically.

Marketing is a way of doing business. It is all pervasive, a part of everyone's job description. Marketing is an expression of a company's character, and is a responsibility that necessarily belongs to the whole company and everyone in it.

Lisbeth Salander, heroine of Stieg Larsson's *The Girl with the Dragon Tattoo* and its sequels, is one of the most compelling, complex characters of our time. Is she an avenging angel? A dangerous outlaw? What makes Salander tick, and why is our response to her—and to Larsson's Millennium trilogy—so strong? In *The Psychology of the Girl with the Dragon Tattoo*, 19 psychologists and psychiatrists attempt to do what even expert investigator Mikael Blomkvist could not: understand Lisbeth Salander. • What does Lisbeth's infamous

dragon tattoo really say about her? • Why is Lisbeth so drawn to Mikael, and what would they both need to do to make a relationship work? • How do we explain men like Martin Vanger, Nils Bjurman, and Alexander Zalachenko? Is Lisbeth just as sexist and as psychopathic as they are? • What is it about Lisbeth that allows her to survive, even thrive, under extraordinary conditions? • How is Lisbeth like a Goth-punk Rorschach test? And what do we learn about ourselves from what we see in her?

This thoroughly updated edition with expanded coverage explores the impact of terrorism on economics, public health, religion and pop culture, and also includes details of ethical issues and debates relating to terrorism.

Color your world with the fabulous art of henna tattoo with this book of patterns and instructions for the body and even home decor objects! Learn how to combine the 5 basic henna shapes into a variety of exotic mendhi designs.

The breathtaking finale to Scarlett Cole's smoldering tattoo series. When her car breaks down off the side of a lonely highway far from her sunny Miami home, tattoo artist Lia never expected her very own white knight to ride up on the back of a barely street-legal motorcycle...and she never expected to fall for her dark savior. After a string of failed relationships and a bruised heart Lia is not looking for forever, and the hot mechanic, with his sexy scruff and shaggy hair, is simply impossible to resist. He's the perfect candidate for a mind-blowingly-perfect, no-strings-attached one-night stand. Reid left his life in Chicago far behind him and hasn't been back, but he's never been able to escape the guilt he feels about his own painful role in inviting a monster into his baby sister's life. A monster who almost destroyed her. Being with Lia is an unexpected gift, one he doesn't feel he deserves. As unique and beautiful as the designs she inks, their one night together has him wanting more than he should. When he surprises her at her tattoo studio, Second Circle Tattoos, in Miami, he's in for a shock—and a fist to the face—when his past and present collide. With secrets coming to the surface, Reid and Lia are thrown into a world of betray and lies that threatens to pull them under, and the last link to his former life may be the darkest of them all.

This pioneering 1933 survey approaches body art from a variety of angles, including artistic, semiotic, psychological, sociological, and cultural perspectives. One of the first studies to analyze the subconscious motivations and erotic implications

behind tattooing, it examines overt and subliminal messages of romance, patriotism, and religious fervor. 27 illustrations. Pain is an evolutionary and adaptive mechanism to prevent harm to an individual. Beyond this, how it is defined, expressed, and borne is dictated culturally. Thus, the study of pain requires a holistic approach crossing cultures, disciplines, and time. This volume explores how and why pain-inducing behaviors are selected, including their potential to demonstrate individuality, navigate social hierarchies, and express commitment to an ideal. It also explores how power dynamics affect individual choice, at times requiring self-induced suffering. Taking bioanthropological and bioarchaeological approaches, this volume focuses on those who purposefully seek pain to show that, while often viewed as "exotic," the pervasiveness of pain-inducing practices is more normative than expected. Theory and practice are employed to re-conceptualize pain as a strategic path towards achieving broader individual and societal goals. Past and present motivations for self-inflicted pain, its socio-political repercussions, and the physical manifestations of repetitive or long-term pain inducing behaviors are examined. Chapters span geographic and temporal boundaries and a wide variety of activities to illustrate how purposeful pain is used by individuals for personal expression and manipulated by political powers to maintain the status quo. This volume reveals how bioarchaeology illuminates paleopathology, how social theory enhances bioarchaeology, and how ethnography benefits from a longer temporal perspective.

Provides a history of Western women's tattoo art, profiling notable tattoo artists, looking at the impact of reality shows on tattoo culture, and chronicling therapeutic uses of tattooing.

Rats have long been recognized as a valuable biomedical research model, notably in the investigation of aging, toxicology, addiction, and common human diseases such as diabetes and hypertension. In many instances, individuals conducting such research studies are charged with important responsibilities, including animal facility management, animal husbandry, veterinary care, regulatory compliance, and various experimental methodologies. With the advent of genetic manipulations and biomedical research technological advances such as bioimaging, the versatility and usefulness of the rat as an animal model has soared. The Laboratory Rat, Second Edition captures the multiple advances in this important animal model's husbandry, veterinary care, and experi-

mental methodology. This edition features augmented, expanded, and novel information on biology, anesthesia, analgesia, and experimental techniques benefiting personnel working with rats—from the animal care staff to the researcher and everyone in between. The book is also extremely useful to institutional animal care and use program supporters and elements, including animal care and use committees, institutional officials, occupational health and safety professionals, veterinary technicians, and veterinarians.

Shaped by Quantum Theory, Technology, and the Genomics Revolution The integration of photonics, electronics, biomaterials, and nanotechnology holds great promise for the future of medicine. This topic has recently experienced an explosive growth due to the noninvasive or minimally invasive nature and the cost-effectiveness of photonic modalities in medical diagnostics and therapy. The second edition of the Biomedical Photonics Handbook presents recent fundamental developments as well as important applications of biomedical photonics of interest to scientists, engineers, manufacturers, teachers, students, and clinical providers. The third volume, Therapeutics and Advanced Biophotonics, focuses on therapeutic modalities, advanced biophotonic technologies, and future trends. Represents the Collective Work of over 150 Scientists, Engineers, and Clinicians Designed to display the most recent advances in instrumentation and methods, as well as clinical applications in important areas of biomedical photonics to a broad audience, this three-volume handbook provides an inclusive forum that serves as an authoritative reference source for a broad audience involved in the research, teaching, learning, and practice of medical technologies. What's New in This Edition: A wide variety of photonic biochemical sensing technologies has already been developed for clinical monitoring of early disease states and physiological parameters, such as blood pressure, blood chemistry, pH, temperature, and the presence of pathological organisms or biochemical species of clinical importance. Advanced photonic detection technologies integrating the latest knowledge of genomics, proteomics, and metabolomics allow sensing of early disease states, thus revolutionizing the medicine of the future. Nanobiotechnology has opened new possibilities for detection of biomarkers of disease, imaging single molecules and in situ diagnostics at the single-cell level. In addition to these state-of-the-art advancements, the second edition contains new topics and chapters including: • Fiber Optic Probe Design • Laser and Optical Radia-

tion Safety • Photothermal Detection • Multidimensional Fluorescence Imaging • Surface Plasmon Resonance Imaging • Molecular Contrast Optical Coherence Tomography • Multiscale Photoacoustics • Polarized Light for Medical Diagnostics • Quantitative Diffuse Reflectance Imaging • Interferometric Light Scattering • Nonlinear Interferometric Vibrational Imaging • Nanoscintillator-Based Therapy • SERS Molecular Sentinel Nanoprobes • Plasmonic Coupling Interference Nanoprobes Comprised of three books: Volume I: Fundamentals, Devices, and Techniques; Volume II: Biomedical Diagnostics; and Volume III: Therapeutics and Advanced Biophotonics, this second edition contains eight sections, and provides introductory material in each chapter. It also includes an overview of the topic, an extensive collection of spectroscopic data, and a list of references for further reading.

A coloring book project.

The souls of men and women have chosen this season in history to speak in a unique and special way. The soul is writing its secrets on the live canvas of the skin with permanent ink... with tattoos. Many see a person covered in tattoos walk by and harbor a snarky and judgmental response, when in fact the tattoos just told a very personal story. The stories of pain, loss, hope, and other sentiments of great importance are revealed on the skin of the wearer. And those without tattoos may very well have missed a loud, yet intimately revealing, message. The first book, *God and Tattoos: Why Are People Writing on Themselves?* and this new edition, both take a look at the WHY. After 1000 tattoo interviews and several tattoo parlors and conventions across the nation, Dr. Allan Dayhoff shares his research, and his love for his many new tattooed friends.

A coloring book by hundreds of artists around the world.

A collection of tattoo designs from many cultures, drawing on historical records. Includes a brief historical overview, and b & w maps. Most designs are in b & w, with a few colour illustrations.

Gian Paolo Barbieri's photographs of the tattooed people of Tahiti provide a record of an unspoken Polynesian language left on the skin of the people.

Text in English & German. This is the second incarnation of what has been deemed the "Bible of Blackwork Tattoos" continues the first volume's photographic journey across the globe: showcasing the absolute best of tattoos that capture the magic of the ancient art form in exciting contemporary interpretations on the body. Within the 448 pages of this massive tat-

too tome, including over 600 images, readers will explore quite different movements in tattoo art. Everything is possible, everything is allowed: black lines, dots, plains, hand-poked or tattooed by machine. And the creative scope is just unlimited: gorgeous traditional tribals, elaborated patterns and figurative designs, to the point of completely free and unconventionally tattooed layouts. The impressive diversity of tattoo designs presented in *Black Tattoo Art II* is based upon the great roster of international artists: 80 top tattooists from Saint Petersburg to Sao Paulo, Austin to Aotearoa, Barcelona to Brooklyn and beyond. They share their creativity, innovation, and spirit in presenting images of their tattoo and fine art work for this book. The book comprises five tantalizing chapters, preceded by short introductions: Ornamental / Neotribal, Dotwork, Celtic / Nordic, Abstract / Art Brut, and Traditional Revival. Altogether, these tattooed works convey the endless possibilities of art that can be created with needles and black ink only. Tattoo artists represented in this book: Tomas Tomas, Leo Zulueta, László Kis, Christophe Souloumiac, Roxx 2Spirit Tattoo, Daniel DiMattia, Jun Matsui, Nazareno Tubaro, Bong Padilla, Rory Keating, Colin Zumbro, Andreas "Curly" Moore, Rob Deut, Mikel Johnson, Mike The Athens, Christos (Christ) Zacharopoulos, Psychopat, Gerhard Wiesbeck, Hellenic Stixis, Calen Paris, Jacqueline Spoerlé, Chris Higgins, Phil Cummins, Patrick Hüttlinger, Tim Hunt, Jared Leathers, Dmitry Babakhin, Xed LeHead, Corson Hayes, Cory Ferguson, Tomas Tomas, Jondix, Vincent Hocquet, Daniel DiMattia, Nazareno Tubaro, Thomas Hooper, Galdo Marco, Matt Black, Delphine Noiztoy, Damien Voodoo, Amanda Ruby, Tattoo Pink, Nathan Kostechko, Gerhard Wiesbeck, Goldilox, Garcia Leonam, Kenji Alucky, Colin Dale, Kai Uwe Faust, Pat Fish, Dimon Taturin, Marianne Sundby, Eric Sundby, Fiumix, Kari Kjelskau, Raffaella Olomhè Ricci, Tor Ola Svennevig, Rory Keating, Zele, Simone Pfaff, Volko Merschky, Noon, idexa stern, Little Swastika, Cammy Stewart, Jef, Cy Wilson, Cy Wilson and Caro, Ran "Ruiner" Macclurkin, Leon Lam tattoo, Loïc aka Xoïl, Yann, Elle Festin, Zel Festin, Tomasi Sulu'ape, Lard Yao Peter, Brent McCown, Durga, Jeremy Lo, Sulu'ape Pili Mo'o.

This revised edition of the original reference standard for urban legends provides an updated anthology of common myths and stories, and presents expanded coverage of international legends and tales shared and popularized online. • Approximately 300 individual entries for specific urban legends • An introduction provides a brief history of urban legend research • A

selected bibliography and reference citations

Since the rise of the dime museum in the 19th century, tattooed bodies have been parading across stages both live and mediated. This book takes a close look at images of tattooed bodies in live performance, advertising, and photography. In so doing, the book combines the craft of cultural analysis with theories of performance while also generating a largely untold history of the tattooed body on display in the United States. Because of this unique combination, the book is truly interdisciplinary and appeals to multiple audiences. At the same time, it sustains a deep theoretical engagement with the central concepts of social and visual agency and the disruption of restrictive social norms. In the end, this study of the visual argues that the agency of images is located within, and not only in opposition to, cultural discourses such as gender, class, and exoticism.

Transgender studies is the latest area of academic inquiry to grow out of the exciting nexus of queer theory, feminist studies, and the history of sexuality. Because transpeople challenge our most fundamental assumptions about the relationship between bodies, desire, and identity, the field is both fascinating and contentious. The Transgender Studies Reader puts between two covers fifty influential texts with new introductions by the editors that, taken together, document the evolution of transgender studies in the English-speaking world. By bringing together the voices and experience of transgender individuals, doctors, psychologists and academically-based theorists, this volume will be a foundational text for the transgender community, transgender studies, and related queer theory.

A landmark publishing achievement on the subject, the new edition of this acclaimed encyclopedia is expanded to two volumes, covering the full range of issues related to animal protection. • Includes hundreds of alphabetically organized entries covering the full range of topics related to animal rights and welfare, including dog fighting, endangered species in zoos, animals as disease carriers, factory farming, veganism, and more • Encompasses the work of 150 contributors—experts from around the world that make up a virtual "who's who" in the broad areas of animal protection • Outlines a chronology of legislation and other important events that have had a significant impact on animal rights issues • Lists references for each entry, plus a comprehensive bibliography at the end of the encyclopedia

The History of World Dress and Fashion presents a comprehensive survey of dress from around the world including China, Japan, India, Africa, the Islamic Empire, and the Ancient Americas. This extensive study features descriptions and analysis of men's, women's and children's clothing, accessories, and cultural styles from pre-history into the twenty-first century. Lavishly illustrated in color throughout, it features more than 1600 images - and is a valuable resource for fashion designers, theater costumers, textile researchers, costume collectors and curators, and anyone interest in clothing and style customs of the world.

"Juniper Ellis traces the origins and significance of modern tattoo in the works of nineteenth- and twentieth-century artists, travelers, missionaries, scientists, and such writers as Herman Melville, Margaret Mead, Albert Wendt, and Sia Figiel." --book cover.

This book is a concise reference guide to tattoos and tattooing for practising dermatologists. Beginning with an overview of the history of the tattoo, the following chapters discuss the different types of tattoo, including both cultural and medical and non-medical aesthetic motives, and the different chemicals and methods for tattooing. The following chapters cover complications of tattoos and tattoo removal, including laser removal, as well as alternatives to tattoos and industry and medical regulations. The practical text is further enhanced by clinical photographs, illustrations and tables. Key points Concise reference guide to tattoos and tattooing Covers different types of tattoos and different methods of tattooing Discusses complications and tattoo removal Features clinical photographs, illustrations and tables

Villain Arts Tattoo News Magazine brings to you the best tattoos and tattoo artists in the world. Over 110 pages of amazing tattoo content and tips and articles written for tattoo artists and serious collectors.

This collection establishes new perspectives on the idea of mystery, as it is enacted and encoded in the genre of detective fiction. Essays reclaim detective fiction as an object of critical inquiry, examining the ways it shapes issues of social destabilization, moral ambiguity, reader complicity, intertextuality, and metafiction. Breaking new ground by moving beyond the critical preoccupation with classification of historical types and generic determinants, contributors examine the effect of mystery on literary forms and on readers, who experience the provocative, complex process of coming to grips with the unknown and the unknowable. This volume opens up discus-

sion on publically acclaimed, modern works of mystery and on classic pieces, addressing a variety of forms including novels, plays, graphic novels, television series, films, and ipad games. Re-examining the interpretive potential of a genre that seems easily defined yet has endless permutations, the book closely analyzes the cultural function of mystery, the way it intervenes in social and political problems, as well as the literary properties that give the genre its particular shape. The volume treats various texts as meaningful subjects for critical analysis and sheds new light on the interpretive potential for a genre that creates as much ambiguity as it does clarity. Scholars of mystery and detective fiction, crime fiction, genre studies, and cultural studies will find this volume invaluable. Updated, reorganized, and revised throughout, this highly lauded three-volume reference provides an interdisciplinary approach to the diagnosis, treatment, and management of head and neck diseases, including the incidence, etiology, clinical presentation, pathology, differential diagnosis, and prognosis for each disorder-promoting clear communication between pathologists and surgeons. Written by more than 30 internationally distinguished physicians, *Surgical Pathology of the Head and Neck, Second Edition* now contains: over 1045 photographs, micrographs, drawings, and tables-nearly 200 more illustrations than the first edition five new chapters on molecular biology, fine-needle aspiration, vesiculobullous diseases, neck dissections, and radiation a cumulative and expanded index in each volume Unparalleled in scope and content by any other book available on the subject, *Surgical Pathology of the Head and Neck, Second Edition* is a must-have resource for oral, surgical, and general pathologists; otolaryngologists; oral, maxillofacial, plastic and reconstructive, general, head and neck, and orthopedic surgeons and neurosurgeons; oncologists; hematologists; ophthalmologists; radiologists; endocrinologists; dermatologists; dentists; and residents and fellows in these disciplines.

AJRI is a reputable Scientific Publication Media aim to foster research findings that concentrates towards recent innovation and creativity to support advancement in global civilization and humanity. AJRI Journal published two times a year (March & September) by Asosiasi Dosen Indonesia (ADI) Publisher. AJRI Journal invites all manuscripts on Multidisciplinary topics.

This four-volume work provides a detailed, multicultural survey of established as well as "new" American religions and investigates the fascinating interactions between

religion and ethnicity, gender, politics, regionalism, ethics, and popular culture. • Comprises contributions from more than 100 top scholars covering a breadth of topics such as Día de los Muertos, Heathenry, Islam, Pentecostalism, roadside shrines, Sufism, Wicca, and Zen from a variety of interdisciplinary perspectives • Provides

thought-provoking insights into religion's interactions with cultural backdrops throughout America, including in education, entertainment, the Internet, the environment, politics, and at home • Contains photographs and illustrations depicting a wide range of religious figures and activi-

ties as well as significant religious sites in the United States • Supplies an entire volume of primary source documents illustrating the religious diversity in American culture, including Cecil B. DeMille's essay "The Screen as Religious Teacher" as well as more conventional materials on Christian Science, the New Age, and Buddhism
