Throughout this blog I will be discussing Tina Bruce’s theory of Play and will link it to the experience I had during my placement. Tina Bruce is known famously for her theory of Free Flow Play, where she discusses 12 features of play that she feels is key to ensuring that a setting is being free flow for the children.

Tina Bruce is a Froebelian who has a sustained interest in play. As a Froebelian educator, she is guided by principles such as working with the whole child. She has written and edited 29 books and many articles. But she is perhaps best known in academic circles for the 10 principles of early childhood first published in 1987 in her book Early Childhood Education and the 12 features of play, published in her second book, Time to Play in Early Childhood Education 1991, which is my all time ...

[‘Social Learning theorist’ - Tina Bruce Free Essay Example](#)

Tina Bruce bases her theory around the importance of a holistic teaching approach centred on play, experiences and creativity (4). Bruce identified 10 core principles of early education. Central to the theory is the belief that play is vital within a child’s learning, and places much emphasis on free-flow play.

The following is an abridged extract from Tina Bruce’s 1991 book Time to Play in Early Childhood Education: Features of Free Flow Play 1) Play is an active process without a product 2) Play is intrinsically motivated

A brief description of the theory 1. Bruce believes that play is an active process rather than something that reaches a goal or produces a product, and that providing toys is not necessary because children can come up with their own props using simple materials such as sticks and pebbles. According to Bruce, adults should support and facilitate play but not be in charge of it; children should be allowed to be in charge of a free-flowing form of play, making up rather than following rules ...
