## 3XCY44 - KRAMER GILL

---

In my opinion, having studied MSci Neuroscience and now being a PhD student, this is the best general neuroscience textbook for undergraduate/graduate neuroscience students. That said, while it excels for molecular neurobiology and systems neuroscience, it is weaker at computational, cellular and behavioural neuroscience.

The 5th edition of a work that defines the field of cognitive neuroscience, with entirely new material that reflects recent advances in the field.
