TOC Current Affairs, Indian History, Geography, Indian Polity, Indian Economy, General Science, General Knowledge

The cricket spends the warm summer days playing and singing while the ant collects food. What will happen when winter comes? The Assistant Chemical Engineer Passbook(R) prepares you for your test by allowing you to take practice exams in the subjects you need to study.

Learning Mathematics - Class 8 has been written by Prof. M.L. Agarwal in accordance with the latest syllabus of the NCERT and Guidelines issued by the CBSE on Comprehensive and Continuous Evaluation (CCE). The subject matter has been explained in a simple language and includes many examples from real life situations. Questions in the form of Fill in the Blanks, True/False statements and Multiple Choice Questions have been given under the heading 'Mental Maths'. Some Value Based Questions have also been included to impart values among students. In addition to normal questions, some Higher Order Thinking Skills (HOTS) questions have been given to enhance the analytical thinking of the students. Each chapter is followed by a Summary which recapitu-

lates the new terms, concepts and results.

Mathematics plays a vital role in every field of our daily life. It is a field where guesses will not work. MATHEMATICS Simplified has been specially created for students who are preparing for various competitive examinations like GMAT, CAT, NDA, CDS, banking, etc. It has been written to understand the tricks of problem solving in a better way. There are many comprehensive questions with sufficient examples - from a beginner to an advanced level. A question bank, with most of the questions drawn from different examinations papers, has been specially designed for thorough practice and better understanding of the subject.

"Romance is the privilege of the rich, not the profession of the unemployed." Hughie, a charming young man with no money, wants to marry a girl named Laura. But Laura's father is concerned with Hughie's lack of wealth and tells him he can only have his daughter if he comes up with 10,000 pounds. Defeated, Hughie visits his artist friend, who in painting a portrait of a beggar. Meeting the beggar outside, Hughie gives him some money. What he doesn't know is that the man isn't a beggar at all but a wealthy baron, and Hughie's generosity might just be the thing to change his life. The Model Millionaire is a charming and funny little story, similar in setting to The Picture of Dorian Gray, but far more optimistic. A delightful read. Oscar Wilde (1854-1900) was an Irish playwright, novelist, essayist, and poet, famous for 'The Picture of Dorian Gray' and 'The Importance of Being Earnest' to name a couple. He was believed to be a homosexual and met a lot of resistance in his life on that account. He died in Paris at the age of 46.

Kari the Elephant (1922) is a children's book by Dhan Gopal Mukerji. Published the year Mukerji moved from San Francisco to New York City, Kari the Elephant is the debut children's book from the first Indian writer to gain a popular audience in the United States. Although less popular than his novel *Gay Neck: The Story of a Pigeon* (1927), which won the 1928 Newbery Medal, Kari the Elephant is a beautiful tale of kinship between the human and animal worlds set in the lush forests of the author's native India. "Kari, the elephant, was five months old when he was given to me to take care of. I was nine years old and I could reach his back if I stood on tiptoe. He seemed to remain that high for nearly two years. Perhaps we grew together; that is probably why I never found out just how tall he was." Raised side by side, Kari and his handler grow inseparable through their travels in the Indian coun-

tryside. As their adventures bring them to cities, jungles, and distant lands, boy and elephant overcome danger and learn the true meaning of friendship. Although he never returned to his native country, Mukerji left an inspiring legacy through his literary achievement and unwavering commitment to Indian independence. With a beautifully designed cover and professionally typeset manuscript, this edition of Dhan Gopal Mukerji's *Kari the Elephant* is a classic of Indian American literature reimagined for modern readers.

Encyclopaedia of General Science is an ideal book for competitive examinations. The concept of the book is based on NCERT Science Books. The General Science book covers subjects like Physics, Chemistry, Biology, Space Science, Agriculture & Animal Husbandry, Environment, Health and Computer Science, which later sub-divided into various chapters. The construction of buildings and structures relies on having a thorough understanding of building materials. Without this knowl-

edge it would not be possible to build safe, efficient and long-lasting buildings, structures and dwellings. Building materials in civil engineering provides an overview of the complete range of building materials available to civil engineers and all those involved in the building and construction industries. The book begins with an introductory chapter describing the basic properties of building materials. Further chapters cover the basic properties of building materials, air hardening cement materials, cement, concrete, building mortar, wall and roof materials, construction steel, wood, waterproof materials, building plastics, heat-insulating materials and sound-absorbing materials and finishing materials. Each chapter includes a series of questions, allowing readers to test the knowledge they have gained. A detailed appendix gives information on the testing of building materials. With its distinguished edi-

tor and eminent editorial committee, Building materials in civil engineering is a standard introductory reference book on the complete range of building materials. It is aimed at students of civil engineering, construction engineering and allied courses including water supply and drainage engineering. It also serves as a source of essential background information for engineers and professionals in the civil engineering and construction sector. Provides an overview of the complete range of building materials available to civil engineers and all those involved in the building and construction industries Explores the basic properties of building materials featuring air hardening cement materials, wall and roof materials and sound-absorbing materials Each chapter includes a series of questions, allowing readers to test the knowledge they have gained
