A general account of the languages of the Soviet Union, one of the most diverse multinational and multilingual states in the world as well as one of the most important. There are some 130 languages spoken in the USSR, belonging to five main families and ranging from Russian, which is the first language of about 130,000,000 people, to Aluet, spoken only by 96 (in the 1970 census). Dr Comrie has two general aims. First, he presents the most important structural features of these languages, their genetic relationships and classification and their distinctive typological features. Secondly, he examines the social and political background to the use of functioning of the various languages in a multilingual state. The volume will be of importance and interest to linguists and to those with a broader professional interest in the Soviet Union.

This is a collection of folk poetry from Transcaucasian Georgia, presented in both the original Georgian language and in English translation. Seventy poems have been selected to represent each of the twenty regions of Georgia as well as its principal poetic genres, and they include themes of love and war, hymns and mythological texts, humor, and reflections on the meaning of life. Included in this work are transliterations of the Georgian alphabet; an introductory chapter providing an overview of the Georgian people and their culture as well as a detailed presentation of the structure of folk poetry and its relation to music and dance; and explanatory notes accompanying the poems that furnish the reader with some of the ethnographic background needed to interpret the poems and understand the contexts in which they were composed. This comprehensive volume is illustrated with a map, photographs, and musical examples.

First published in the 1930s, Bradley, Ewing and Knight is one of the UK's best known law textbooks of all time. Written by a team of senior academics and a leading public law practitioner, the book is the definitive guide to all aspects of the constitution, and has been cited by courts across the world, including the UK's Supreme Court. At its heart however, the book remains a student textbook with one fundamental aim; to provide all law students with a readable and comprehensive grounding in Public Law suitable for use on both first year modules, and more advanced courses. Go on the trip of a lifetime. Two Wheels South shows you how to realize your own journey. Two friends take the motorcycle trip of their life--From Brooklyn to Patagonia. Matias Corea shares his insights on how to prepare, choose the right motorcycle, what to pack, how to plan the route, where to camp and last but not least: How to prepare your mind. Setbacks and breaking down are part of the adventure, but preparation and being on the road teach you the confidence to tackle any problem. Follow Matias Corea and his friend Joel through the American South, Central America over the Darien Gap and beyond, over wooden cracking jungle bridges in Colombia and to dry lake high plateaus in Argentina. Feel the character of the roads and the smell of nature: Riding a motorcycle is one of the purest forms of traveling. After 7 months and 13 countries Matias and Joel have learned a lot while riding down south on their trusty BMW air-cooled G / S overland haulers and are ready to share their experience. Two Wheels South invites you on the experience of a lifetime.

An anthology of writings on atheism, agnosticism, and skepticism by some of the world's most celebrated thinkers.

Catharism was a popular medieval heresy based on the belief that the creation of humankind was a disaster in which angelic spirits were trapped in matter by the devil. Their only goal was to escape the body through purification. Cathars denied any value to material life, including the human body, baptism, and the Eucharist, even marriage and childbirth. What could explain the long popularity of such a bleak faith in the towns of southern France and Italy? *Power and Purity* explores the place of cathar heresy in the life of the medieval Italian town of Orvieto. Based on extensive archival research, it details the social makeup of the Cathar community and argues that the heresy was central to the social and political changes of the 13th century. The late 13th-century repression of Catharism by a local inquisition was part of a larger redefinition of civic and ecclesiastical authority. Author Carol Lansing shows that the faith attracted not an alienated older nobility but artisans, merchants, popular political leaders, and indeed circles of women in Orvieto as well as Florence and Bologna. Cathar beliefs were not so much a pessimistic anomaly as a part of a larger climate of religious doubt. The teachings on the body and the practice of Cathar holy persons addressed questions of sexual difference and the structure of authority that were key elements of medieval Italian life. The pure lives of the Cathar holy people, both male and female, demonstrated a human capacity for self-restraint that served as a powerful social model in towns torn by violent conflict. This study addresses current debates about the rise of persecution, and argues for a climate of popular toleration. *Power and Purity* will appeal to historians of society and politics as well as religion and gender studies. This provides a comprehensive approach and includes both literal translations and definitions with several useful innovations. Included is not only the modern English pronunciation but also the classical or 'restored' one. Each entry is also cross-referenced to related terms for ease of use.

Kamal Abdulla is a well-known Azerbaijani writer and scholar. He has written works on linguistics, culturology and mythology, and is the author of poet-

ry, essays, plays, stories, and novels. His prose has been published and translated into French, Turkish, Russian, English, Portuguese, German, Polish, Bulgarian, Georgian, Arabic, Lithuanian, Japanese, and other languages. His plays have been performed in Azerbaijan, Georgia, and Estonia. His work is not without its detractors. Many articles and books have been written about his work, some positive, some negative. He has won literary awards in his own country, and been subject to unfair criticism. In the early years of Azerbaijan's independence, liking his novels was considered a sign of good literary taste. In later years, not liking these works is considered a sign of good literary taste. Original language, world view, philosophical foundation, and mythological sense characterize his work. His writing features mountains invisible to the eye, and valleys of sorcerers where it is forever spring. Here ancient manuscripts come to life and history is re-read in a completely different way. Centaurs roam his favourite city, Baku, while in ancient Egypt, people turn into flowers, and flowers into people. The idolized heroes of his mythological texts are fleshed out as ordinary, everyday people. Sometimes dead people emerge from their images, restore justice, and then return to their images. Not satisfied with living in their own worlds, characters lead very different lives in parallel worlds. The story of Theseus and the Minotaur enters our own time, and finally the phantasmagoria reaches such a point that Paris gives the apple to Hera, not Aphrodite...

"As novelist and poet Andrei Codrescu points out in the essay that accompanies this selection of photographs from the Getty Museum's collection, Evans's photographs are the work of an artist whose temperament was distinctly at odds with Beals's impassioned rhetoric. Evans's photographs of Cuba were made by a young, still maturing artist who - as Codrescu argues - was just beginning to combine his early, formalist aesthetic with the social concerns that would figure prominently in his later work."--Jacket.

Traces The Historical Development Of Roman Civilization From Prehistoric Times Through The Death Of Constantine The Great In 337 A. D.

"Like Muir himself, *Essential Muir* packs an astounding range of experience into a lithe frame: ecstatic yet scientific descriptions of Yosemite; the heartrending tale of that "wee, hairy, sleekit beastie," Stickeen; reflections on the society of Eskimos;Muir's touching tribute, after a lifetime of wonder, to the mighty baobob trees of Africa; and more. Fred D. White's selection from Muir's writings, and his illuminating commentary, reveal the coherence and drama of a remarkable life: new readers will understand why Muir has become an American icon, and readers who are familiar with his work will be delighted with this fresh look. Muir's fierce love of all of nature, from squirrels to glaciers (but perhaps not sheep), continues to inspire us nearly a century after his death."--Book jacket.

The series is a platform for contributions of all kinds to this rapidly developing field. General problems are studied from the perspective of individual languages, language families, language groups, or language samples. Conclusions are the result of a deepened study of empirical data. Special emphasis is given to little-known languages, whose analysis may shed new light on long-standing problems in general linguistics.

"During his reign, Joseph Stalin oversaw the forced resettlement of people by the millions - a maniacal passion that he used for social engineering. Six million people were resettled before Stalin's death. This volume is the first attempt to comprehensively examine the history of forced and semi-volun-

tary population movements within or organized by the Soviet Union. Contents range from the early 1920s to the rehabilitation of repressed nationalities in the 1990s, dealing with internal (kulaks, ethnic and political deportations) and international forced migrations (German internees and occupied territories)."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Best known for his "Legend of Duluoz" novels, including *On the Road* and *The Dharma Bums*, Jack Kerouac is also an important poet. In these eight extended poems, Kerouac writes from the heart of experience in the music of language, employing the same instrumental blues form that he used to fullest effect in *Mexico City Blues*, his largely unheralded classic of postmodern literature. Edited by Kerouac himself, *Book of Blues* is an exuberant foray into language and consciousness, rich with imagery, propelled by rhythm, and based in a reverent attentiveness to the moment. "In my system, the form of blues choruses is limited by the small page of the breastpocket notebook in which they are written, like the form of a set number of bars in a jazz blues chorus, and so sometimes the word-meaning can carry from one chorus into another, or not, just like the phrase-meaning can carry harmon-

ically from one chorus to the other, or not, in jazz, so that, in these blues as in jazz, the form is determined by time, and by the musicians spontaneous phrasing & harmonizing with the beat of time as it waves & waves on by in measured choruses." —Jack Kerouac

The main purpose of the conference is communication between scientists and industry representatives from Ukraine and other countries, and also discussion new up to date technical inventions in accordance with the topics of the conference

The dictionary offers a complete compilation and a historical-comparative reflection of the hereditary lexis of the Kartvelian (South Caucasian) language family. It represents the latest stage of etymological research, contains a wealth of new lexical entries, corrections of earlier attempts and new reconstructions. The introduction provides a survey of general data of the four Kartvelian languages (Georgian, Mingrelian, Laz, Svan), characterizes the historical-comparative research in short and provides a detailed description of the system of regular phoneme correspondences. The main chapter presents the Kartvelian lexis in separate entries. The reconstructed forms of the root- and affix morphemes are listed in alphabetical order followed by instances of the Kartvelian languages. Each entry covers the phonological development of the lexical item from its original form to its present state and is supplemented by references.

Since it was discovered in 1908, the Phaistos Disk - one of the most important artifacts from Crete's minoan culture - has challenged scholars of diverse disciplines and captivated interests of amateurs. Its allure is primarily due to the fact that no one has been able to really solve its mystery. None of the numerous decipherments has found general acceptance or scientific approval. This book does not offer yet another attempt at deciphering the Disk. Rather, it is a short presentation of the various research efforts on the dating and origin, writing and language, as well as content and purpose of the Disk. This lively account of the most important aspects of a not-so-strictly-scholarly debate, which has gone on for decades, also includes a view of the putative solutions.
