Firstly by ensuring equality in access to data; secondly in building greater trust in public data; and thirdly by ensuring that public services are more personalised and efficient by being smarter with the data public bodies hold. The UK is currently co-chairing the Open Government Partnership of 55 governments whose theme is 'Transparency drives prosperity' with the belief that opening up data will empower citizens, foster innovation and reform public services. It is also, therefore, about how others participate. About businesses and organisations becoming more transparent themselves and pushing data into the public domain and individuals taking that data and using it to make better decisions or press for different types of services.
