“Laurel Delaney writes in a tremendous spirit of service to entrepreneurial and small business leaders navigating the opportunities of globalization. Whether leading a fresh startup, a small business, or an entrepreneurial growth company seeking greatness, the question of whether—and how—to go global must be addressed. Delaney shows yet again her passionate dedication to serving her readers with deeply practical guidance.”—Jim Collins, author of *Good to Great* and co-author of *Beyond Entrepreneurship* Gain the knowledge you need to market, sell, and fulfill orders internationally, taking full advantage of the Internet and the opportunities it creates. This book is the bible for entrepreneurs and small business owners taking their US businesses to the next level of growth through exports. Exporting empowers readers with the can-do confidence to tackle the challenges and opportunities of exporting, leading to greater revenues, stability, and profitability for your business. With 70 percent of global buying power lying outside US borders, exporting is not just an option for ambitious entrepreneurs—it’s an absolute must for building and sustaining a successful future. Typically, exporting first appears on the radar of small businesses as unsolicited inquiries from foreign customers on the web via your email, website, blog, or Facebook page. People outside your country want your product, and they want it now. The problem is that most small business owners do not know how to service these inquiries. What’s the best way to ship goods? Do I need a license? Should I sell through wholesalers in specific countries or directly to consumers? How will I get paid? Reflecting the rapid rate of change in national and global trade regulations and economic conditions, this second edition contains extensive updates and enhancements of the first edition’s data and citations; actual and prospective multilateral trade agreements, especially the TPP and TTIP; CFR,

EAR, and BIS rules; interviews with trade and sector specialists; economic trends and shocks affecting export opportunities and risks in various regions and sectors; and the annotated selection of recommended exporting resource sites. Exporting: The Definitive Guide to Selling Abroad Profitably: Lays out simple steps and tips to conduct market research, find customers, open new markets, create an export business plan, get paid, and ship goods and services efficiently and profitably Shows you how to use the Internet and social media to mediate the exporting process and expand your international presence Details how the US government helps exporters and how to avoid foreign regulatory pitfalls

The Directory: contains more than 2,000 Web site records, organized into 20 subject-themed chapters. It provides descriptions and URLs for each site and describes sites to help in choosing the proper resource. It also provides Web site descriptions that includes information about the sponsoring agency and notes the useful or unique aspects of the site as well as listing some of the major government publications hosted on the site. It evaluates the most important and frequently sought sites providing a roster of congressional members with members' Web sites and includes a one-page “Quick Guide” to the major federal agencies and the leading online library, data source, and finding aid sites. There are multiple indexes in the back of the book to help locate Web sites by agency, site name, subject, and government publication title. The Master Index combines the agency, site name, and subject indexes. A separate index lists Web sites with full or substantial Spanish-language versions.

The second edition of the Impact Evaluation in Practice handbook is a comprehensive and accessible introduction to impact evaluation for policy makers and development practitioners. First published in 2011, it has been used widely across the development and academic communities. The book incorporates real-world examples to present practical guidelines for designing and implementing impact evaluations. Readers will gain an understanding of impact evaluations and the best ways to use them to design evidence-based policies and programs. The updated version covers the newest techniques for evaluating programs and includes state-of-the-art

implementation advice, as well as an expanded set of examples and case studies that draw on recent development challenges. It also includes new material on research ethics and partnerships to conduct impact evaluation. The handbook is divided into four sections: Part One discusses what to evaluate and why; Part Two presents the main impact evaluation methods; Part Three addresses how to manage impact evaluations; Part Four reviews impact evaluation sampling and data collection. Case studies illustrate different applications of impact evaluations. The book links to complementary instructional material available online, including an applied case as well as questions and answers. The updated second edition will be a valuable resource for the international development community, universities, and policy makers looking to build better evidence around what works in development.

Includes subject area sections that describe all pertinent census data products available, i.e. "Business--trade and ser-

vices", "Geography", "Transportation," etc.
