UK Police Recruitment 2019: 20,000 New Police Recruits!

Nearly 4,000 polices officers and staff across all UK police forces were asked about their digital evidence management challenges,

how they're coping, and plans for the future.

First national Dynamic Purchasing System for digital forensics goes live. Forensic service providers are invited to enter their bid to be on the £60million framework for the first national Dynamic Purchasing System (DPS) for digital forensic services.

Disclosure is a vital part of every investigation and the preparation of every case for prosecution and trial. The National Disclosure Improvement Plan (NDIP) published in January 2018 demonstrated the unprecedented joint commitment and focus of the police, the CPS and the College of Policing to finding solutions to the problem of getting disclosure right.

Digital technology has the potential to transform the way policing is delivered - taking police officers away from police stations and bringing them closer to communities and crime spots. However, in order to truly benefit from these new digital capabilities a holistic approach is required - starting with core processes and behaviours.

The DPB sets the strategy for digital policing and defines, prioritises, and co-ordinates digital capability development nationally, regionally, and locally. The DPB reports to the Police Reform & Transformation Board (PRTB) and is chaired by Essex Police's Chief Constable Stephen Kavanagh.
