### ISO/TS 16949: TS & QMS for the Automotive Industry Revision of the ISO/TS 16949 Standard | NQA

The IATF 16949 technical standard, formerly known as ISO/TS 16949 or simply TS 16949, governs several aspects of quality management within the automotive industry. Originally published by the International Organization for Standardization (ISO) in 1999, the most recent revision of IATF 16949 was adopted and published in 2016 by the International Automotive Task Force (IATF). ISO/TS 16949, a technical specification for automotive sector quality management systems, has become one of the most widely used international standards in the automotive industry, harmonizing the different assessment and certification systems in the global automotive supply chain.

### IATF 16949 Revision - DQS Inc.

The last official day to transition your ISO/TS 16949 management system to IATF 16949 was 14 September 2018. Even if you haven't started, it's never too late to adapt your quality management system and experience the benefits of the new standard. Though your certificate has now expired, BSI can still help you achieve certification.

### Umsetzungsleitfaden Revision Iso Ts 16949 Die Neue Iatf ISO Revisions IATF 16949:2016 - BSI Group IATF 16949-2016 - AIAG

We present umsetzungsleitfaden revision iso ts 16949 die neue iatf and numerous books collections from fictions to scientific research in any way. In the middle of them is this umsetzungsleitfaden revision iso ts 16949 die neue iatf that can be your partner.

The first revision of ISO/TS 16949 was reviewed by the International Automotive Task Force (IATF) at a gathering earlier this year in Rome. For organizations currently certified to ISO/TS 16949:2009, the transition to the revised standard must be completed by September 14, 2018.

### What is TS 16949? A Standard for Automotive Quality Management

auditing and training services relating to ISO/TS 16949. He has over 10 years of experience in the development and implementation of ISO/TS 16949 Quality Management System for the automotive industry, and is also a Lead Auditor for other management system certifications, including ISO/TS 16949, ISO 9001, ISO 14001 and OHSAS 18001.

IATF 16949 is a global Quality Management System Standard for the Automotive industry. IATF 16949:2016 incorporates the structure and requirements of the ISO 9001:2015 quality management system standard with additional automotive customer-specific requirements. It was developed by the International Automotive Task Force (IATF), with support from AIAG.

The revised ISO/TS 16949:2009 standard doesn't introduce any new or changed requirements from ISO/TS 16949:2002. The revision is based on the updates made to the ISO 9001:2008 standard. Minor changes were made to ISO 9001 to provide clarification, greater consistency, resolution of perceived ambiguities, and improved compatibility with ISO 14001, which relates to environmental management systems.
