Uneasy Alchemy: Citizens and Experts in Louisiana's Chemical Corridor Disputes (Urban and Industrial Environments)

The uneasy alchemy of Aurora Consurgens The unknown illustrator of the Aurora Consurgens, an obscure alchemical treatise of the 15th century, produced metaphor-rich artworks that are strange, disturbing, raw — and curiously intriguing.

Uneasy Alchemy : Citizens and Experts in Louisiana's ...

Uneasy Alchemy examines the role of experts — lawyers, economists, health professionals, and scientists — in the struggles for environmental justice in the state's infamous Chemical Corridor or "Cancer Alley." This legendary toxic zone between New Orleans and Baton Rouge is home to about 125 oil and chemical plants; cancer and respiratory illness rates there are among the highest in the nation.

Uneasy Alchemy is more than a serious, scholarly work, which it is; Allen's writing is also clear, approachable and tells a fascinating story that is filled with insightful observations as she interprets the contradictory landscape of that part of the world.
