This "interesting and perceptive" memoir recalls the familial country house the author's grandparents bought in 1923 (*The Washington Post Book World*). The only child of divorced parents, Penelope Lively was often sent to stay at her grandparents' country house, Golsoncott. Long after the house was sold out of the family, she begins to piece together the lives of those she knew fifty years before. As her narrative shifts from room to room, object to object, Lively paints a moving portrait of an era of rapid change—and of a family that transformed with the times. Charting the course of the domestic tensions of class and community among her relatives, she brings to light the evidence of the horrors endured during the Russian Revolution and the Holocaust through accounts of the refugees who came to live with

them. “An elegiac yet resolutely unsentimental book, the house becomes a Rosetta stone for the author’s familial memories and an unwitting index of social change” in this eloquent meditation on place and time, memory and history, and tribute to the meaning of home (Michiko Kakutani, *The New York Times*). *Unlocking Company Law* is the ideal resource for learning and revising Company Law. This 4th edition has been extensively updated, and this, along with its many pedagogical features, makes it the ideal companion for students studying Company Law. Each chapter in the book contains:

- aims and objectives;
- activities such as self-test questions;
- charts of key facts to consolidate your knowledge;
- diagrams to aid memory and understanding;
- prominently displayed cases and judgments;
- chapter summaries;
- essay questions with answer plans.

In addition, the book features a glossary of legal terminology, making the law more accessible.

Do you sometimes have a feeling, or an instinct, about someone or something? A subtle knowing without any logical reason or proof? Do you tend to trust it or question it? We have always been told: "Trust your gut", "Trust your instincts", or "Trust your intuition". In cases of imminent danger, absolutely! However, under normal circumstances we face on a daily basis, that may not always be the case...At least not until you've read this book! Believing we can, and always should "trust ourselves", can be deceiving. It relies on quick, automatic subconscious processing based on a feeling and an emotion, or feedback from our physical body and nervous system. All of which hold biases, trauma, memories, and fears. In this powerful, must-read book, Intuitive Empath Cielo Canlas teaches us what we must first learn and

understand about ourselves in order to discern which inner voice is speaking, which lens is perceiving, which body is reacting, and which mind is processing. We are complex beings with many layers: emotional, physical, mental, and spiritual. This book unpacks all of it from a holistic perspective using scientific evidence, psychological principles, and Cielo's own personal stories and spiritual experiences. It is truly a Divine experience in not only unlocking your intuition, but a journey in discovering all aspects of yourself.

In *The Gravity of Up*, Brent Yates helps others reject the negative mind-sets that are holding them down to live healthy, happy lives. Your life is designed to be the ultimate adventure. What holds you back from realizing that potential right now? What is pushing you down instead of pulling you up? Moving up might feel like something too daunting to achieve, but the good news is that up is a direction not a destination. Today is the day you begin moving forward as author Brent Yates shows you how to unshackle and propel yourself into a more abundant life. From the outside, Brent Yates had it all—money, success, a beautiful wife and family—but inside, he was dying. One by one, everything that he valued was taken from him until he was suicidal and crippled with a mysterious malady that no doctor could identify. Instead of giving up, he decided to pinpoint what wasn't working in his life and embark on a quest to discover happiness. By implementing a holistic approach, Brent found the three pillars of a healthy life to be rooted in the spiritual, mental, and physical. You might be battling with some of the same issues that Brent had—depression, loneliness, and feeling life was without purpose—or maybe you simply feel

stuck right now. The Gravity of Up is a blueprint to lose the old, negative thoughts and embrace a new world-altering mindset. Now, happy and healthy, Brent is living proof that the formula works and is eager to help you move up! 'One of the most talented crime writers alive' Washington Post 'I've been enthusiastically telling everyone who will listen to read Tana French' Harlan Coben, author of Safe Sometimes there is no safe place. Nothing about the way this family lived shows why they deserved to die. But here's the thing about murder: ninety-nine times out of a hundred, it doesn't break into people's lives. It gets there because they open the door and invite it in... In Broken Harbour, a ghost estate outside Dublin - half-built, half-inhabited, half-abandoned - two children and their father are dead. The mother is on her way to intensive care. Scorcher Kennedy is given the case because he is the Murder squad's star detective. At first he and his rookie partner, Richie, think this is a simple one: Pat Spain was a casualty of the recession, so he killed his children, tried to kill his wife Jenny, and finished off with himself. But there are too many inexplicable details and the evidence is pointing in two directions at once. Scorcher's personal life is tugging for his attention. Seeing the case on the news has sent his sister Dina off the rails again, and she's resurrecting something that Scorcher thought he had tightly under control: what happened to their family, one summer at Broken Harbour, back when they were children. The neat compartments of his life are breaking down, and the sudden tangle of work and family is putting both at risk . . .

'As a student of international relations and a former diplomat, Zhang brings the insights of a practitioner and the eye of

scholar to explain why Chinese actors choose to engage in aid cooperation with traditional donors in the Asia-Pacific. This book is among the first to take a holistic approach to understanding the motivations of the many agencies involved in China's aid program, and it will challenge the expectations of many readers.' —Dr Graeme Smith, The Australian National University 'This book breaks new ground by examining a little-known dimension of China's foreign policy: trilateral aid cooperation. Denghua Zhang sets this highly original analysis in the context of the new assertiveness of Chinese foreign policy under Xi Jinping, the China International Development Cooperation Agency established in 2018, and the Belt and Road Initiative, which now serves as the framework for Chinese overseas aid and engagement. At a time when the debate in the West about the rise of China has intensified, not always knowledgeably, this book fills an important gap in our understanding of China in Southeast Asia and the Pacific.' —Dr Stewart Firth, The Australian National University 'This thoroughly researched work examines trilateral cooperation as a new and interesting aspect of China's growing international aid program, and as a window into the changing nature of that program as well as the wider foreign policy in which it is embedded. The broad themes and topics discussed are clearly significant, ultimately touching on one of the most important international issues of our time, the implications of the rise of China for a long-established Western-dominated international system.' —Prof. Terence Smith-Wesley, University of Hawai'i

This volume considers China-Africa relations in the context of a global division of labour and power, and through the history and experiences of both China and

Africa. It examines the core ideas of structural transformation, productive investment and industrialization, international trade, infrastructure development, and financing.

Did you know there is an area of your brain known as the "Lizard Brain" that thinks only about the immediate moment and your means of survival? Yes, in certain circumstances, your "Rational Brain" can effectively "shut down" and you are at the mercy of a reptile ... dry-mouthed, sweating, queasy, unable to think clearly—even though you know better. When does the Lizard Brain run the show? It can happen in any number of unfamiliar, uncomfortable, challenging, or "stressful" riding situations. But here's the thing: with the right kind of training, you can learn to manage the reptile within, which leads to greater confidence with horses, better riding performance, and ultimately, happiness at the barn, at shows, and everywhere in between. Andrea Monsarrat Waldo teaches you how to: handle uncomfortable emotions, such as fear, anger, anxiety, and embarrassment; hone your mental game and focus your riding time to get the most out of your hours in the saddle; care for your emotional injuries the same way you would care for an injured horse; and produce a state of "Focused Calm" and tap into the skills you have (whether you know it or not!) to ensure an outstanding ride.

a squirrel - the squirrel then asks wise Miss Owl for advice. She pages through her library of books and scrolls and until she finds that, "There is only one reason for gibbering, shivering, jiggling and jogging fearful cold," she read in her big, fat book of Wisdom Whoppers. "This cold is not outside but inside and is a big, big problem if not cured! It will make your eyes see funny things and your ears hear funny noises and your tummy turn in funny circles - a dreadful condition indeed!" Mrs. Owl wondered to herself, "If the cold is inside and not outside, how can I get what is in, out?" "I've got the answer!" shouted Owl with great joy. "The cold must get out the same way it got in!" "The thoughts in our heads become the words in our mouths and then change into the doors that keep in and keep out!!" "You see, Squirrel, our thoughts are very powerful. The thoughts in our heads are the secret place where all the wonders of the earth are stored, churned, milled, ground and made. But there, we can also hold dark, scary thoughts and lies. Those thoughts turn into words, either good ones or bad ones! We need to know the secret of how to lock in the good thoughts and let them get rid of the bad ones - just like light gets rid of darkness, effortlessly! Light is stronger than darkness. God's Mirror is His thoughts about us; that's the key! "It's a magic Mirror," replied Squirrel excitedly. "It lets you see the truth that unlocks the door to let the gibbering, shivering, jabbering, jiggling cold out. Wise owl said that, the cold could only get out the way it got in!" So Little Bear, take this Mirror. Look deeply into it." Squirrel waited with eager curiosity, "Tell me, what do you see?" Little Bear took the Mirror and gazed deeply. The more he looked, the wider his grin spread along his big bear mouth. "I see

me," said Little Bear.

Before 1975 most of the population lived in highland villages, spoke local languages, and rarely used money. Today many have moved to peri-urban lowland settlements, and even those whose lives remain dominated by customary ways understand that those of their children will not. For the Atoni Pah Meto of the island's west, the world was neatly divided into two distinct categories: the meto (indigenous), and the kase (foreign). Now things are less clear; the good things of the outside world are pursued not through rejecting the meto ways of the village, or collapsing them into the kase, but through continual crossing between them. In this way, the people of

Oecussi are able to identify in the struggles of lowland life, the comforting and often decisive presence of familiar highland spirits.

With Ivy still broken over her recent loss, she hopes to find safety and comfort back home, and introduce Finn to her family. Soon after arriving, Ivy and her family head to Grey Raven after going months without hearing from Lady Oharra and fearing the worst, but no one is prepared for what they find. The raiders are ramping up their attacks, pushing closer to Godstone with the intent to dethrone King Magnus and conquer the North. Magnus tries to rally his allies, but someone has been shooting down his messenger hawks. With no other choice, Magnus, Finn and the king's men ride for the Twisted Tower, while Ivy accompanies a group to Tordenfall to bring back as many warriors as they can to defend Godstone. If Godstone should fall, so too will the North. With Finn and Ivy separated, Finn gets to know King Magnus better and the two become close. Back home, with the North rallied and ready to fight, a new threat comes from within the walls of Godstone. Someone the Blackbourne's thought they could trust has betrayed them, sent by Helvarr to destroy them from the inside. After a fight that nearly costs Ivy everything, a mysterious woman named Kyatta informs Ivy of her fate. Kyatta has powers that Ivy doesn't understand, but she will soon unlock her own powers that have remained dormant up until now. The battle for Godstone begins, and when Helvarr marches his army to their walls, nothing and no one will stop him- no army, no girl with her promise, not even a king. The stakes

are higher, the love deeper, battles bloodier and the ending will leave you shocked. You might even think to yourself... "I knew it."
