Unstoppable Global Warming: Every 1, 500 Years Updated and ...

Unstoppable Global Warming is a fascinating and is a different view from others, like the media, on global warming. The authors, Fred Singer and Dennis Avery, are both smart and respected men that seemed to be well informed. I found that most of the book was interesting, but could get boring and lackluster at some points.

Unstoppable Global Warming: Every 1, 500 Years, Updated ...

Using historic data from two millennia of recorded history combined with the natural physical records found in ice cores, seabed sediment, cave stalagmites, and tree rings, Unstoppable Global Warming argues that the 1,500 year solar-driven cycle that has always controlled the earth's climate remains the driving force in the current warming trend.

Unstoppable Global Warming: Every 1, 500 Years: Singer ...

Another comment in the review section that's not a review - 'Debra J. Saunders writing for the San Francisco Chronicle and the St. Petersburg Times has said, "Unstoppable Global Warming – Every 1,500 Years, that argues that the Earth warms every 1,500 years due to a solar-linked cycle.
