regeneration, public private partnerships and EU urban policy. Following the elaboration of the theoretical research framework, five case studies were selected after an in-depth review of over 50 urban regeneration projects across the EU. These included regeneration schemes in the cities of Cardiff (UK), Rotterdam (NL), Turin (IT), San

Measuring Socially Sustainable Urban Regeneration in Europe

There is no single 'European model' for successful urban regeneration, but a consistent approach runs through the case studies - a powerful local authority is in charge of the regeneration scheme, and is using it not just to revive a run-down area but also to change the whole image of the city and transform its strategic economic position.

Regeneration in European cities: making connections | JRF

It examines the factors influencing these processes, as well as the consequences of their implementation. Through a mixture of theoretical discussion and detailed case studies, Urban Regeneration in Europe will: provide a comprehensive and informed presentation of policies discuss the challenges and opportunities faced by old industrial areas develop current knowledge and understanding on the urban regeneration process put forward an interdisciplinary approach.

Urban Regeneration in Europe (Real Estate Issues): Chris ...

URBACT is a European exchange and learning programme promoting sustainable urban development. We enable CITIES to work together to develop solutions to major urban challenges, reaffirming the key role they play in facing increasingly complex societal changes.

Urban Renewal | URBACT

Urban regeneration programs in Europe vary widely but with an emphasis on sustainability and addressing social exclusion affecting poorer populations (Colantonio and Dixon, 2011; Couch et al., 2003). Beginning in 1994, the European Union launched an URBAN Community Initiative, aimed at the regeneration of deprived neighborhoods.

Urban Regeneration - an overview | ScienceDirect Topics

The publication "Urban regeneration in Europe: The place of housing in integrated urban policies" addresses a third dimension of the 'future of social housing in the EU', namely the 'urban' dimension. It aims at bringing together the social and economic dimensions while focusing on their effects in concrete places.
