Whether you're beginning a complete engine rebuild or simply freshening up a worn engine, choosing the correct parts is critical - it's easy to spend hundreds, even thousands of dollars on a perfectly balanced and expertly assembled engine that ends up offering less horsepower than a solid, stock B18 or B20.This is exactly what we'd like ...

A new Volvo Penta carbureted 4.3 GL engine was subjected to emissions and dynamometer durability testing from break in to expected end of life using an accelerated ICOMIA marine emissions cycle and E15 fuel. The accelerated ICOMIA cycle used here was based on the standard ICOMIA cycle but with limited Mode 5 (idle) and Mode 4 (25% load) operation.

The Volvo B21 is a slant straight-four engine first used in the Volvo 200 series, meant to replace the B20. The B21 and all derived engines are often referred to as red block engines for the red paint applied to the block. The primary differences when compared to the B20 was the switch to a SOHC in place of the older pushrod configuration, and ...
