Aptly entitled *The Moon Hoax*, the current publication is an attempt (and a rather successful one, it can be said) by the author to fool the masses into thinking that the moon is inhabited by fellow human beings. He does this by mimicking a scientific report writing supposedly penned by an astronomer (who, of course, is mere fiction), Sir John Herschel.

A boy and the moon share a walk through his neighborhood.

"A simple message about the way prayer unites everyone, as the multicultural subjects in Velasquez's gorgeous illustrations make clear." —Publishers Weekly (starred review) A young boy wakes. He has forgotten to say his prayers. Outside his window, a beautiful harvest moon illuminates the city around him and its many inhabitants. As the moon slowly makes its way across the heavens, the boy offers a simple prayer for the homeless, the hungry, and others. Critically acclaimed author Tonya Bolden teams up with award-winning illustrator Eric Velasquez to create a richly painted and emotionally complex book that celebrates prayer and kindness while recognizing the diversity of the world around us. "The great thing about this book is that even though the main character is praying, it has no specific religious persona or aspect emanating from it, so children of any denomination will be able to easily relate to it." —Portland Book Review "This beautiful book brings prayer to the modern world and hauntingly shows just how needed it is." —Kirkus Reviews "The diverse people sharing the night, the realistic dilemmas of the people in need, and the handsome presentation should serve well as bedtime reading for families practicing daily prayer." —School Library Journal "A good starting place for discussion, this will give youngsters a sense of those in need as well as what's worth praying for." —Booklist

From the author of *The Weight of Feathers* comes a young adult novel about a girl hiding the truth, a boy with secrets from his past, and four sisters who could ruin them both. Recipient of a Stonewall Honor and longlisted for the National Book Award, McLemore delivers a second stunning and utterly romantic novel, again tinged with magic. To everyone who knows them, best friends Miel and Sam are as strange as they are inseparable. Roses grow out of Miel's wrist, and rumors say that she spilled out of a water tower when she was five. Sam is known for the moons he paints and hangs in the trees and for how little anyone knows about his life before he and his mother moved to town. But as odd as everyone considers Miel and Sam, even they stay away from the Bonner girls, four beautiful sisters rumored to be witches. Now they want the roses that grow from Miel's skin, convinced that their scent can make anyone fall in love. And they're willing to use every secret Miel has fought to protect to make sure she gives them up. Atmospheric, dynamic, and packed with gorgeous prose, *When the Moon Was Ours* is another winner from this talented author.

Thought-provoking' - Daily Mail The moon has confounded scientists for many years. It does not obey the known rules of astrophysics and there is no theory of its origin that explains the known facts - in fact it should not really be there. When researching the ancient system of geometry and measurement used in the Stone Age that they discovered in their previous book, *Civilization One*, the authors discovered to their great surprise that the system also works perfectly on the Moon! On further investigation, they found a consistent sequence of beautiful integer numbers when looking at every major aspect of the Moon - no pattern emerges for any other planet or moon in the solar system. For example, the Moon revolves at exactly one hundredth of the speed that the Earth turns on its axis; the Moon is exactly 400 times smaller than the Sun and is precisely 400 times closer to the Earth. They also discovered that the Moon possesses little or no heavy metals and has no core, in fact many specialists suspect that the Moon is hollow. If our Moon did not exist - nor would we. Experts are now agreed that higher life only developed on Earth because the Moon is exactly what it is

and where it is! When all of the facts are dispassionately reviewed, it becomes unreasonable to cling to the idea that the Moon is a natural object. The only question that remains is who built it?

The *Moon Shines Down* by Margaret Wise Brown Illustrated by Linda Bleck Forgotten for decades in a dusty, tucked-away trunk, *The Moon Shines Down* brings to life once more the unmistakable voice of Margaret Wise Brown. This soon-to-be classic allows a whole new generation of children to discover, cherish, and enjoy the artistry of this beloved author. Never before published, *The Moon Shines Down* on children all over the world from right next door to across the sea, from where "a Dutch boy dreams" and "cowbells ring" to "across the sea in the Far, Far East", through the familiar prayer: I see the Moon And the Moon sees me. God bless the Moon, And God bless me. Margaret Wise Brown

(1910–1952) was a pioneer of children’s literature, choosing to write the stories that children wanted to hear—rather than those that grown-ups wanted to tell. She is best known for her now classic *Good Night Moon* and *Runaway Bunny*, which remain among the world’s best-selling children’s books. Margaret was a prolific writer, and, at the peak of her career, she had over 100 books in print. Her untimely death left numerous manuscripts and ideas behind in various stages of completion. After a time, these were tucked away in a cedar trunk and largely forgotten. It is from this forgotten trunk that *The Moon Shines Down* was rescued. Illustrator Linda Bleck began her artistic career as a child, drawing on rolls of old blueprint paper supplied by her architect father. Later, she helped her mother, a freelance illustrator for Hallmark, paint in the details of her intricate drawings. Linda’s work has appeared in *The New Yorker*, *Time Magazine*, and the *Wall Street Journal*. She is also the writer and illustrator of the “Pepper the Dog” series, which won the National Parenting Publication Award. Linda and her family now live in southern Wisconsin . . . where the moon shines down on them, one and all. *The Story Behind the Lost Manuscript . . . The Moon Shines Down* from MARGARET WISE BROWN, the Author of *Goodnight Moon* *The Moon Shines Down* is being published for the first time 56 years after the death of the beloved children’s author Margaret Wise Brown. Amazingly, this unpublished manuscript lay incomplete and forgotten in a cedar trunk in a Vermont barn. When it

was discovered, the onionskin paper had yellowed and the paperclips that held the pages together had rusted. Children’s book publisher, Laura Minchew, a longtime fan of Brown, took on the challenge to complete the work. Based on the New England Sampler prayer, “God Bless the Moon and God Bless Me,” this soon-to-be bedtime classic is a prayer for God’s blessing on all the world’s children.
