Watchmaking—George Daniels—Google Books

George Daniels CBE He was widely regarded as the greatest watchmaker in the world during his lifetime, and famously invented a new watch mechanism, the coaxial escapement, which revolutionised the accuracy of mechanical watches as the first new escapement design for over two centuries.

George Daniels, The World's Greatest Watchmaker | Watches ...

George Daniels was one of the few modern watchmakers who could create a complete watch by hand, including the movement, case and dial. To achieve this, he had to master the thirty-two individual disciplines which are required to make a watch. During his career, George Daniels completed 27 watches, (not including prototypes).

George Daniels

Dr. George Daniels is perhaps best known for his expansion of the double wheel coaxial escapement. His version did not require the use of lubrication, which was known to interfere with the accuracy of timekeeping. This innovation made him famous in the watchmaking industry.
