Who Would Win?: Whale vs. Giant Squid by Jerry Pallotta

Whale vs Giant Squid Edit In the very cold waters of the Southern Ocean a solitary sperm whale is getting ready to leave in search for a female, Nearby a giant squid is swimming near the surface to look for a cave to live but is charged by the massive mammal.

Whale Vs Giant Squid Who Would Win

It is one of the species of the sperm whale family, which has two other species. On the other hand, colossal squid is also known as giant Cranch squid. The Sperm whale has some scars on its body that resembles the tentacles of the giant squid. You can easily see that the colossal squid is the largest squid if you compare them based on mass.

Colossal Squid vs Sperm Whale fight comparison, who will win?

Like all squid, a giant squid has a mantle (torso), eight arms, and two longer tentacles (the longest known tentacles of any cephalopod). The arms and tentacles account for much of the squid's great length, making it much lighter than its chief predator, the sperm whale. Scientifically documented specimens have masses of hundreds, rather than thousands, of kilograms.
