### **UJCNQD - MOONEY DAVIES**

---

This book collects John Gardner's celebrated essays on the theory of private law, alongside two new essays. Together they range across the central puzzles in understanding the significance of outcomes, the role of justice in private law, strict liability, the reasonable person standard, and the role of public policy in tort law.

The French law of torts or of extra-contractual liability is widely seen as exceptional. For long it was based on a mere five articles of the Civil Code of 1804, but on this foundation the courts and legal scholars have constructed liabilities for fault and strict liability of an extraordinary breadth and significance. While the rest of the general law of obligations (including contract) in the Civil Code was reformed in 2016 by executive ordonnance, this area was left aside, being the subject in 2017 of a proposal by the French Government for the legislative reform of the law of civil liability, a new legislative category to include both contractual and extra-contractual liability. This work considers important aspects of this developing area of French law in a series of essays by French lawyers and comparative lawyers working in French law and other civil law systems. In doing so, it provides insight into the doctrinal thinking and judgments of French lawyers as well as the possible directions in which this area of the law may be developed in the future.

The first textbook to address land law as it relates to the Commonwealth Caribbean, it encompasses all areas covered in an undergraduate course on the law of real property in the Caribbean. Primary and secondary source material on the law of property in the whole of the Commonwealth Caribbean is made easily and readily accessible to law students and legal practitioners. Statutory provisions from all States are discussed in relation to each topic and the similarities and differences are highlighted. Extensive discus-

sion and analysis of the decisions of the courts in the region are also included alongside an in-depth analysis and critical discussion of English case law that is relevant to the Caribbean. The examination of whether or not English case law should be followed in the region is relevant and interesting to anyone studying or practising law in other Commonwealth jurisdictions. Essential reading for undergraduate law students in the Caribbean, this text will also prove useful to those studying for the certificate of proficiency in the practice of law in the Commonwealth Caribbean, while the footnote references to statutory provisions are an invaluable aid to any researcher of Caribbean land law.

Maximise your marks for every answer you write with Law Express Question and Answer. This series is designed to help you understand what examiners are looking for, focus on the question being asked and make even a strong answer stand out.

The essential guide to all aspects of Tort Law, you can rely on this textbook to give your students a thorough understanding of the subject, expose them to the key academic debates and research in this often controversial area, offer further reading suggestions and ensure that they are able to apply their subject knowledge and legal reasoning skills to problematic tort law scenarios.

Modern Tort Law is a comprehensive, accessible and up-to-date introduction to the law of torts. Now in its seventh edition, Vivienne Harpwood's popular, student-friendly text explains the principles of all aspects of tort law in a lively and thought-provoking manner. The broad coverage of modern tort law makes this an ideal textbook for any undergraduate tort law course. Students are encouraged to understand and apply the principles of tort law effectively throughout and particular attention is paid to the context within which the law is evolving, making these topics both accessible and enjoyable. This seventh edition has been revised and updated to take into account developments since publication of the

previous edition including in the areas of privacy, negligence, personal injury and defamation. Human Rights issues are integrated throughout the text rather than treating the topic in isolation, in line with the way the subject is commonly taught. Now more accessible and student-friendly, it includes: advice on further reading at the end of each chapter which is intended to point students towards sources of further study and critical debate new chapter introductions, rewritten to reflect learning outcomes. Modern Tort Law is now supported by a Companion Website which offers lecturer resources available to adopters of the book, including 'think points' designed to encourage reflection and debate and Power-Points of diagrams and flowcharts contained within the text. A dedicated student section also offers weblinks, a guide to key Tort law cases, a flashcard glossary and a test bank of multiple choice questions.

Tort law is a core element of every law degree in England and Wales. Unlocking Torts will ensure you grasp the main concepts with ease. This book explains in detailed, yet straightforward, terms: Negligence and negligence related torts including occupiers' liability and employers' liability Land based torts such as trespass, nuisance and Rylands v Fletcher Liability for animals Torts relating to goods Trespass to the person Defamation and other torts relating to reputation Economic torts, breach of a statutory duty, vicarious liability, defences and remedies The fourth edition is fully up to date with the major recent cases including major developments in vicarious liability. It also includes changes after the Defamation Act 2013. The Unlocking the Law series is designed specifically to make the law accessible. Each chapter opens with a list of aims and objectives, contains activities such as quick quizzes and self-test questions, key facts charts to consolidate your knowledge, and diagrams to aid learning. Cases and judgments are prominently displayed, as are primary source quo-

tations. Summaries help check your understanding of each chapter, there is a glossary of legal terminology. New features include problem questions with guidance on answering, as well as essay questions and answer plans, plus cases and materials exercises. All titles in the series follow the same formula and include the same features so students can move easily from one subject to another. The series covers all the core subjects required by the Bar Council and the Law Society for entry onto professional qualifications as well as popular option units. The series website [www.unlockingthelaw.co.uk](http://www.unlockingthelaw.co.uk) provides free resources such as multiple choice questions, key questions and answers, revision mp3s and cases and materials exercises.

I. Introduction -- II. Moving Forward -- III. Conclusion -- Appendix -- Duty cases from the High Court of Australia -- Duty Cases from the Supreme Court of Canada -- Duty Cases from the House of Lords and UKSC -- Index

This work is intended as a study/revision aid for students, rather than as a substitute for more detailed treatises. It analyzes the law of tort in terms of the issues that are likely to be of interest to examiners and explains these areas in an accessible manner, as well as summarizing existing academic opinion.; The emphasis throughout is on facilitating students' understanding of a topic. The new edition takes into account recent developments in the law of tort. These include the increasing use of the law of negligence in sport; further developments when suing public bodies for breach of a duty of care; the increasing influence of the European Court of Human Rights on the development of the law of tort; changes in the method of calculating personal injuries damages; the liability of Internet service providers in the law of defamation and use of the qualified privilege defence in libel.

This textbook provides insight into the differences commonalities and mutual influence of the tort law systems of various European jurisdictions, bringing together national tort law, comparative law, EU law, and human rights law.

Providing a comprehensive and principled account of the uncertainty problem that arises in tort litigation, this text critically examines the existing doctrinal solutions of the problem, as evolved in England, United States, Canada & Israel.

The publication of *Scholars of Tort Law* marks the beginning of a long overdue rebalancing of private law scholarship. Instead of concentrating on judicial decisions and academic commentary on-

ly for what that commentary says about judicial decisions, the book explores the contributions of scholars of tort law in their own right. The work of a selection of leading scholars of tort law from across the common law world, ranging from Thomas Cooley (1824–1898) to Patrick Atiyah (1931–2018), is addressed by eminent current scholars in the field. The focus of the contributions is on the nature of the work produced by each of the scholars in question, important influences on their work, and the influence which that work in turn had on thinking about tort law. The process of subjecting tort law scholarship to sustained analysis provides new insights into the intellectual development of tort law and reveals the important role played by scholars in that development. By focusing on the work of influential tort scholars, the book serves to emphasise the importance of legal scholarship to the development of the common law more generally.

The law of torts is concerned with the secondary obligations generated by the infringement of primary rights. This work seeks to show that this apparently simple proposition enables us to understand the law of torts as found in the common law. Using primarily English materials, but drawing heavily upon the law of other common law jurisdictions, Stevens seeks to give an account of the law of torts which relies upon the core material familiar to most students and practitioners with a grasp of the law of torts. This material is drawn together in support of a single argument in a provocative and accessible style, and puts forward a new theoretical model for analysing the law of torts, providing an overarching framework for radically reconceiving the subject.

The law of torts recognises many defences to liability. While some of these defences have been explored in detail, scant attention has been given to the theoretical foundations of defences generally. In particular, no serious attempt has been made to explain how defences relate to each other or to the torts to which they pertain. The goal of this book is to reduce the size of this substantial gap in our understanding of tort law. The principal way in which it attempts to do so is by developing a taxonomy of defences. The book shows that much can be learned about a given defence from the way in which it is classified. This book has been awarded Joint Second Prize for the 2014 Society of Legal Scholars Peter Birks Prize for Outstanding Legal Scholarship.

This textbook considers all the topics typically included in tort courses. Several chapters deal first with primary issues relating to

liability, negligence, and breach of statutory duty before passing on to examine specific torts, such as nuisance, defamation and the economic torts.

The authors focus on English law but cover significant developments in Commonwealth countries, and, where appropriate, European systems of tort law. They offer an understanding of the purpose of tort law and also detail the rules and principles that make up tort law and explain how the law has developed.

Street on Torts provides a scholarly and incisive treatment of the law of torts with a focus upon key concepts and clear explanations. This book builds upon the learning of its previous, celebrated authors and, nearly 60 years after publication of the first edition, is considered a classic exposition of the law of torts.

Innovative and groundbreaking research on how tort and crime interrelate in English law.

Each section begins with a clear overview of the key points of the law, before fully explaining and illustrating the topic through substantial case extracts and further commentary."--BOOK JACKET.

This book is the first in a series of essay collections on defences in private law. It addresses defences to liability arising in tort. The essays range from those adopting a primarily doctrinal approach to others that examine the law from a more theoretical or historical perspective. Some essays focus on individual defences, while some are concerned with the links between defences, or with how defences relate to the structure of tort law as a whole. A number of the essays also draw upon concepts and literature that have been developed mainly in relation to the criminal law, and consider their application to tort law. The essays make several original contributions to this complex, important but neglected field of academic enquiry.

In recent years a strand of thinking has developed in private law scholarship which has come to be known as 'rights' or 'rights-based' analysis. Rights analysis seeks to develop an understanding of private law obligations that is driven, primarily or exclusively, by the recognition of the rights we have against each other, rather than by other influences on private law, such as the pursuit of community welfare goals. Notions of rights are also assuming greater importance in private law in other respects. Human rights instruments are having an increasing influence on private law doctrines. And in the law of unjust enrichment, an important debate

has recently begun on the relationship between restitution of rights and restitution of value. This collection is a significant contribution to debate about the role of rights in private law. It includes essays by leading private law scholars addressing fundamental questions about the role of rights in private law as a whole and within particular areas of private law. The collection includes contributions by advocates and critics of rights-based approaches and provides a thorough and balanced analysis of the relationship between rights and private law.

This revised second edition of *Comparative Tort Law: Global Perspectives* offers an updated and enriched framework for analysing and understanding the current state of tort law around the world. Using a critical comparative methodology, it covers not only the common tort law issues but also many jurisdictions often overlooked in the mainstream literature. Contributions explore illuminating case studies from tort systems in Europe, the US, Latin America, Asia and sub-Saharan Africa, including new chapters specifically discussing tort law in Brazil, India and Russia.

With contributions by numerous experts

Accessible yet theoretically stimulating analysis which depicts tort law as a system of ethical rules and principles of personal responsibility.

This title is part of UC Press's *Voices Revived* program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1951.

This text offers an overview of the tort system for the non-lawyer or new law undergraduate. This new edition looks at topics such as the theories of tort law, accident compensation and its future,

the rise of negligence, and issues in economic loss.

This work is now well established as the leading text on tort law in the region, and this third edition incorporates the most recent developments in law and legal thinking.

*Tax Avoidance and the Law* is a helpful guide for undergraduate and postgraduate students who want a thorough understanding of this dynamic area of law. The book is written in a way which is easy to follow and conveniently summarises complex case law on tax avoidance. *Tax Avoidance and the Law* explores the evolution of the UK's General Anti-Abuse Rule. It provides a useful comparison with other Western jurisdictions' anti-avoidance legislation, including the United States of America, Australia, New Zealand, South Africa, Canada and the EU. The underlying theme of the book rests on the notion that the taxpayer's subjective motives, intentions or purposes are irrelevant when assessing tax liability. The book enables students to gain a good grasp of the fundamental issues in tax avoidance in a clear manner.

*Caribbean Business Law* breaks away from the traditional English approach of treating business law primarily as the law of contract and agency. It provides a broad overview of the foundation of various legal systems and goes on to examine the various areas of legal liability that may impact on business activities. These areas include tort law, criminal law, internet law and payment in business transactions. Specifically, the book targets the development of business law in several Commonwealth jurisdictions, including Canada and Australia, but with special focus on legal developments in Commonwealth Caribbean countries. The approach of the book is to present excerpts from judgments, so as to enable students to understand legal principles as espoused by the judiciary without the filtering bias of authors. This new title is essential reading for students taking LLB and Business Degree courses in the Caribbean and other Commonwealth jurisdictions.

This is an ideal main text for undergraduate tort law courses. The authors combine a lively, engaging writing style with a critical approach to the subject. It uses pedagogical features such as 'counterpoint' and 'pause for reflection' boxes to encourage students to think more deeply.

A comprehensive, stimulating introduction to trusts law, which provides readers with a clear conceptual framework to aid understanding of this challenging area of the law. Aimed at readers studying trusts at an undergraduate level, it provides a succinct and enlightening account of this area of the law. Concise and clear, this book also identifies and discusses many analytical perspectives, encouraging a deeper understanding of the issues at hand. It offers an outstanding treatment of specific areas, in particular remedial constructive trusts and trusts of family homes. Ideal for providing a broad background to the issues before embarking on an in-depth study of trusts, it can also be used to help the reader to develop their understanding. For those looking to challenge themselves, detailed footnotes highlight further issues and point the direction for future reading. Fully revised to take into account the Charities Act 2006, judicial developments through case law, and recent academic work in this area, this new edition in the renowned Clarendon Law Series offers a well-written, careful, and insightful introduction to the law of trusts.

The rule of law is widely perceived to be a public law doctrine, concerned with the way governmental authority conforms to dictates of law. This book explores the idea that the rule of law instead concerns the conditions under which any relationship - that among citizens as well as that between citizens and the state - becomes subject to law.

Original sources illustrate and compare the principal doctrines of private law in the United States, England, France, Germany and China.
