Duiker's comprehensive, balanced history of the world in the twentieth and twenty-first centuries provides you with context for interpreting the events that you hear about in the news each day. You'll view history from the broader global perspective, while at

the same time gaining insight into the distinct character of individual civilizations and regions. To ensure that you'll have a well-rounded understanding of the most decisive moments in recent times, Duiker integrates political, economic, social, and cultural history into a smoothly written narrative. The Fifth Edition text includes a special insert that guides you in using the text's many detailed maps and helps you learn how to make important connections between geography and the turn of historic events. Additional tools include timelines that highlight and contrast different cultures and nations--giving you an "at-a-glance," holistic perspective on eras and their defining events; photos from William Duiker's own collection for a closer, more personal look at the world we live in; and primary-source documents that illustrate and clarify key points.

Explore world history in a brief, balanced, highly readable overview that examines common challenges and experiences that unite the human past and identify key global regional patterns over time with *THE ESSENTIAL WORLD HISTORY*. This brief

This book traces the historical development of the World History course as it has been taught in high school classrooms in Texas, a populous and nationally influential state, over the last hundred years. The author argues that the course has dynamically evolved to reflect a patchwork of competing visions that have intersected over the past century, with each new framework partially but never completely erasing or replacing those that came before. The first part of the book presents an overview of the World History course supported by a numerical analysis of textbook content and public documents, whilst the second focuses on the depiction of non-Western peoples, and persistent narratives of Euro-

centrism, imperialism, and nationalism. It ultimately concludes that a more global, accurate, and balanced curriculum is possible, despite the tension between the ideas of professional world historians, who often de-center the nation-state in their quest for a truly global approach to the subject, and the historical core rationale of state-sponsored education in the United States: to produce loyal citizens. Offering a new, conceptual understanding of how colonial themes in world history curriculum have been dealt with in the past and are now engaged with in contemporary times, it provides essential context for scholars and educators with interests in the history of education, curriculum studies, and the teaching of World History in the United States.

sive analysis of large-scale violence and the methods of its restraint in the early modern world. Using examples from Asia, Africa, the Americas and Europe, it questions the established narrative that violence was only curbed through the rise of western-style nation states and civil societies. Global history allows us to reframe and challenge traditional models for the history of violence and to rethink categories and units of analysis through comparisons. By decentring Europe and exploring alternative patterns of violence, the contributors to this volume articulate the significance of violence in narratives of state- and empire-building, as well as in their failure and decline, while also providing new means of tracing the transition from the early modern to modernity.

This resource book is designed to assist teachers in implementing California's history-social science framework at the 10th grade level. The models support implementation at the local level and may be used to plan topics and select resources for professional development and preservice education. This document provides a link between the framework's course descriptions and teachers' lesson plans by suggesting substantive resources and instructional strategies to be used in conjunction with textbooks and supplementary materials. The resource book is divided into eight units: (1) "Unresolved Problems of the Modern World"; (2) "Connecting with Past Learnings: The Rise of Democratic Ideas"; (3) "The Industrial Revolution"; (4) "The Rise of Imperialism and Colonialism: A Case Study of India"; (5) "World War I and Its Consequences"; (6) "Totalitarianism in the Modern World: Nazi Germany and Stalinist Russia"; (7) "World War II: Its Causes and Consequences"; and (8) "Nationalism in the Contemporary World." Each

unit contains references. (EH)
