Slaps in the face, kicks, beatings, and other forms of run-of-the-mill violence were a quotidian part of life in German Southwest Africa at the beginning of the twentieth century. Unearthing this culture of normalized violence in a settler colony, *Violence as Usual* uncovers the workings of a powerful state that was built in an improvised fashion by low-level state representatives. Marie A. Muschalek's fascinating portrayal of the daily deeds of African and German men enrolled in the colonial police force called the *Landespolizei* is a historical anthropology of police practice and the normalization of imperial power. Replete with anecdotes of everyday experiences both of the policemen and of colonized people and settlers, *Violence as Usual* re-examines fundamental questions about the relationship between power and violence. Muschalek gives us a new perspective on violence beyond the solely destructive and the instrumental. She overcomes, too, the notion that modern states operate exclusively according to modes of rationalized functionality. *Violence as Usual* offers an unusual assessment of the history of rule in settler colonialism and an alternative to dominant narratives of an ostensibly weak colonial state.

*Cop Doc* delivers a unique map of police psychology. Retired NYPD sergeant Daniel Rudofossi delivers compelling inside scoops: the first-grade detective who nailed the Times Square bomber, intelligence enigmas unraveled by the DEA intelligence chief, wisdom culled from a best-selling novelist, a NYPD detective captain's narrative of the Palm Sunday Massacre, and much more. The book also includes an interview with a captain of hostage negotiations and a preface by the founder of the NYPD department of psychological services. Both students and seasoned professionals can find insights into policing and forensic psychology in these pages.

This book focuses on two key aspects of hate crime in the UK since 1945: those motivated by racial and religious prejudices. It examines factors that have underpinned the emergence and occurrence of racial and religious hate crime and the approaches and policies that have been pursued by the state, especially the criminal justice system, to combat this problem. Crucially, it also provides insight into the challenges that are faced in the contemporary period (especially in the wake of the 2016 EU referendum) in combatting hate crime. Additionally the book briefly considers the importance of the rhetoric of the Trump campaign and the administration's early policies to the contemporary manifestations of racial and religious hate crime.

The Assessment Center process is the best method for identifying management potential in candidates and whether they can demonstrate a talent for planning and organizing, and possess the

necessary judgment, communication skills and decision-making ability to move up the ranks. Many candidates do possess these abilities, but they have not learned how to apply them. This book will teach you how to use all your potential. Law enforcement officers are often confused, afraid, nervous or just plain curious about what they will experience when they go through the process. Most books on the assessment center process cover primarily its history, the skill dimensions, a description of the process and provide a few sample exercises. What makes this book different is that it provides an experiential approach to preparing for an assessment center by including numerous practice exercises, experiential learning, role player scripts, sample detailed Assessor Guides, and information from an experienced professional who has a 360-degree view of assessment center processes. By practicing these exercises, the reader will learn a great deal about their potential and abilities. The organization of this book starts with the notorious, challenging, perplexing, incorrectly defined and life-changing in-basket exercise. The author has many years of experience with in-baskets, which has included providing feedback to candidates and training assessors. Many of the essential sample exercises and components of the in-basket exercise are included in this book and have been used in past assessment center processes or in customized exercises. This second edition also includes a new chapter on "The Future of Policing Exercises," and several new exercises have been included in the Exhibits Appendix. After reading the sample exercises and commentary contained herein, you will be convinced that your time and money have been well spent. Why? Because you will have practiced the exercises herein and, beyond just reading about the assessment center process, you will have learned about many of the most important components of the process.
