Rakesh plants a cherry seedling in his garden and watches it grow. As seasons go by, the small tree survives heavy monsoon showers, a hungry goat that eats most of the leaves and a grass cutter who splits it into two with one sweep. At last, on his ninth birthday, Rakesh is rewarded with a miraculous sight—the first pink blossoms of his precious cherry tree! This beautifully illustrat-

ed edition brings alive the magical charm of one of Ruskin Bond's most unforgettable tales.

While some try to get out of prison, Soapy, the only character in O. Henry's short story, tries to get into it. Soapy is a homeless guy who prefers the warm cell to the cold night under the New York sky. He does everything he can think of in order to draw the attention of the police. However without any success. Until he hears a magical organ anthem. How will this story develop? Will Soapy manage to get into jail or he will find another way to sort out his life? "The Cop and the Anthem" is a comical short story with a touch of irony which emphatically presents the lower class and the obstacles man has to face. William Sidney Porter (1862-1919), known simply as O. Henry, was a prolific American author of humorous literary pieces. His fame came exceptionally quickly and he became a bestselling author of short story collections, among the most famous being "Cabbages and Kings", "The

Voice of the City", and "Strictly Business." As a result of the outstanding literature legacy that O. Henry left behind, there is an American annual award after his name, given to exceptional short stories.

Originally published in two volumes in 1868 and 1869, "Little Women" is a novel by American author Louisa May Alcott. THERE is a small village on the river Madhumati. On account of its being the residence of wealthy zemindars it is regarded as a village of importance. One Chaitra afternoon the summer heat was gradually abating with the weakening of the once keen rays of the sun; a gentle breeze was blowing; it began to dry the perspiring brow of the peasant in the field and play with the moist locks of village women just risen from their siesta. It was after such a siesta that a woman of about thirty was engaged in her toilet in a humble thatched cottage. She took very little time to finish the process usually so elaborate with womankind; a dish of water, a tin-framed looking-glass three inches wide, and a comb matching it sufficed for the task. Then, a little vermilion adorned her forehead. Last of all some betel leaves dyed her lips. Thus armed, a formidable champion of the world-conquering sex set out with a pitcher in her arm and pushing open the wattled gate of a neighbouring house entered within it. There were four huts in the house which she entered. They had mud floors and bamboo walls. There was no sign of poverty anywhere, everything was neat and tidy. The four huts stood on the four sides of a quadrangle. Of these three had entrances opening on the yard, the fourth opened outwards. This last was the reception room, while the others, screened on all sides, constituted the zenana. Some brinjals and salads were growing on the carefully tilled plot of land in front of the raised terrace before the outer room. The whole was

enclosed by a reed fence with a bamboo gate. So the woman could easily make her way into the house. It is superfluous to add that she went straight towards the zenana. I know not where the other inmates of the house had gone after their siesta, but at that time there were only two persons there—one, a young woman of eighteen bent over her embroidery and a child of four immersed in play. His elder brother had wilfully left his ink-pot behind when going to school. The child's eyes had fallen on it, and he was joyfully smearing his face with the ink. He seemed to be afraid of his brother coming back and snatching the ink-pot away, and so he was emptying the pot. The newcomer sat down on the floor by the side of her who was working and asked, "What are you doing?"

Most people believe the Mongolian Empire was a small tribe known for looting, robbing, and pillaging. The Mongols used to be

little more than nomads prowling the harsh and often barren steppes of Mongolia, but this all changed when a great leader, Genghis Khan, took control. The Mongols were innovative and creative in everything they did beyond just warfare. They owed their successes to their military tactics and impressive art of war, which relied heavily on incredible horsemanship, archery, and other fighting skills. But they also created an immersive world full of ideas, inventions, and art. The Mongolian Empire was a state built by folks who knew how to keep up with the times. The Mongols put to use many ideas and technologies of the day and were very much capable of making these things work for them. Adversity usually gives birth to strength, and the Mongols are a fine example of this principle in practice. Let Dinobibi guide you through a discover of the story of the Mongol Empire, a great testament to how empires rise and fall, exemplifying a process that has been part of the human experience for millennia.

Kautilya, also known as Chanakya, is India's most illustrious political economist of all time. He regarded economic activity as the driving force behind the functioning of any political dispensation. In fact, he went to the extent of saying that revenue should take priority over the army because sustaining the army was possible out of a well-managed revenue system. Kautilya advocated limiting the taxation power of the State, having low rates of taxation, maintaining a gradual increase in taxation and most importantly devising a tax structure that ensured compliance. He strongly encouraged foreign trade, basing it on the premise that for a successful trade contract to be established, it had to be beneficial to all. He emphasised State control and investment in land, water and mining. Kautilya was a true statesman who bridged the gap

between experience and vision. For Kautilya, good governance was paramount. He suggested built-in checks and balances in systems and procedures for the containment of malpractices. Many postulates of Kautilya's philosophy of political economy are applicable to contemporary times.

The strongest man in the world is he who stands most alone. Dr Stockmann attempts to expose a water pollution scandal in his home town which is about to establish itself as a spa. When his brother conspires with local politicians and the newspaper to suppress the story, Stockmann appeals to a public meeting - only to be shouted down and reviled as 'an enemy of the people'. Ibsen's explosive play reveals his distrust of politicians and the blindly held beliefs of the masses. Christopher Hampton's version of Ibsen's classic was first staged at the National Theatre, London, in 1997.
